J. H. BOWMAN ADDRESSES BODY

Labor Day Committee Enlarged-Resolution of Welcome to Printing Pressmen's and Assistants' Union-To Draft Labor Legislation - Delegates from Many Organizations-Electrical Workers.

The Central Labor Union on Monday night, at Typographical Temple convened in weekly session with President Feeney presiding, and C. E. Dietrich, secretary.

The representatives from many of the trade organizations were present and considerable business transacted. Minutes of the preceding meeting

were read, approved, and adopted. Credentials were received from the Theatrical Stage Employees' Union, No. 22, and delegates obligated.

Cigarmakers presented their contract and upon request it was referred to Contract Committee, for action subject to changes that might be beneficial to

organized labor. There were a number of cases referred to the Grievance Committee.

Committee on Code revision reported that the purpose of the revision committee was only to revise existing laws, and not inject new subject matter.

It was decided that this body draft a Congress next winter asking for certain labor legislation.

Mr. J. H. Bowman, president of the International Printing Pressmen's and Assistants' Union and president of the Central Labor Union of Chicago, addressed the meeting.

Retail Clerks made a favorable report upon early closing matters.

The Electrical Workers, No. 148, through the secretary stated that they had no right to participate in the building trades as they did outside electrical construction.

Many communications from different organizations indorsing the action of organizations into single organizations and lumber. I thought it was white pine, perspicacity. As a matter of fact, I employers on the unfair list were received.

A few miles farther on we overtook or were overtaken by a freight train, so we bade the president goodby and clambered aboard the freight while it was running slowly up grade. The conductor said he did not carry passengers, and invited us to retire at the next stopping place, which was at hand even as he spoke. We got off and looked the place over while the engineer was cutting out a car loaded with mackerel and malaria medicine, but as the train pulled out we again boarded the caboose and assured the conductor that we were not passengers in the ordinary sense, but were simply traveling in the same direction that he was, number of bills to be presented to and had no intention of insulting him by offering him money for his society and assistance. This did not seem to surprise him nor to put the matter in a different light, and he expressed a desire to be alone. By this time the train had acquired too much speed to be safely abandoned, though I have no doubt we could have boarded it if we had been on the ground, so we were compelled to inflict ourselves on his solitude until another stopping place was reached. so far one report of "progress" is all we have heard. Private Secretary Ricketts and Captain Brian were also favorably disposed, but doubted the feasibility of any sub. plan under existing conditions. Mr. Palmer, being an old newspaper man, could readily see the advantages of substitute work, both to the membership and to the office, and regretted that he was powerless to comply with the wishes of the President Bowman's report, among committee. At least this is what a member of the committee told me, and I take it to be correct. > The present system of electing International officers must have suggested its inutility to everyone who, when about to mark his ballot, has discovered he knew personally not a single man on the ticket. In his utter helplessness he turns to his alleymate and asks: 'Say, Bill, who should I vote for for delegate?-I don't know any of these fellows." And Bill replies : "O! vote for Jones; I guess he's as good as any workingmen in the world." Common sense suggests placing the election of officers in the hands of delegates to the convention, who are better prepared to pass judgment after "sight" than the layman to whom the candidate is "unseen." Abolish the referendum!

An Honest Commission.

Judge HENRY D. HARLAN, ex-Mayor F. C. LATROBE, Mr. ROBERT H. SMITH, Gen. FELIX AGNUS, Mr. J. OLNEY NORRIS, Mr. FRANK N. HOEN, and Judge Samuel D. Schmucker are the gentlemen who comprise the Court and the Building Trades Council, as well as House Commission of Baltimore, who by the various locals connected with the two have made a final report to that city on their work in constructing the new temple of justice. It is the last chapter of a highly creditable story. The Court House is a magnificent architectural monument, and its construction has not been marred by any of the scandals or endless delays which make up a portion of the history of such undertakings. The Commission was carefully selected, and went at its task in a business-like and conscientious manner. Each of ing the best results at a minimum of expense and exercised fully as much care in planning for the new building as though he were doing the work for himself. Appropriations of \$2,750,000 ground has been purchased and the structure has been reared and fully furnished for that sum. About \$1,300 the city treasury.

Baltimore is to be congratulated.

Report of Grievance Committee-Cigarmakers' Union, No. 110, Indorse Rodier's Resolution-Resolution Relative to Suffrage-President Announces New Committees-Unusual Death Rate.

Columbia Typographical Union met on Sunday last at 2.30 p. m. The following traveling cards were reported as being received by the Secretary: Royal P. Remington, Erie, Pa.; W. B. Tarkington, Raleigh, N. C.; G. N. Proctor, Alexandria, Va.; W. T. Herritage, Asheville, N. C., and F. W. Shears, Clinton, Iowa.

The committee on nominations reported favorably on the applications of two members, who were duly obligated.

Communications were received from the Central Labor Union announcing the placing of H. L. McQueen and P. Union, on the unfair list, and the names | quality. of B. Solomon and Joseph Auerbach

last meeting calling on all members to withhold their patronage from any store or saloon in which non-union cigars are on sale.

The grievance committee reported at length on certain matters under consideration by them. A complaint was received from the Barbers' Union that certain members of our Union be disciplined for patronizing those shops displaying the old union card. The committee recommended that the charges be dismissed and urged all our members to patronize the square card. The committee also reported on the grievance of Bricklayers' Union with The Independent Oil Co. As the matter is in a fair way of adjustment, the committee recommended that action be deferred. Relative to the trouble with Kraft & Sons, bakers, the committee asked that the recommendation 14. PRICE'S BINDERY, 628 Louisiana avenue northwest. placing them on the unfair list be indorsed. The Union deferred action until next meeting. The committee also reported on the case of Joseph Marinella, referring the case to the Union without recommendation. The Union refused to indorse the request on the ground that the offense charged against him is not sufficient to place all printing done for them. Patronize him on the unfair list. The committee the above firms, and Unionists, the city reported favorably the request of Horse- over, will reciprocate. shoers' Union in placing J. Mangan on the unfair list, which was agreed to. The committees for the ensuing year were then read by the President, showing but few changes over the list of the past year.

President Lawson then announced that the next order of business was the installation of officers. The Secretary called the names of all officerselect, no absentees being noted. The President then administered the obligation to the following: Vice-President, Walter V. Smith; Secretary, Wm. M. Garrett; Treasurer, John R. Berg; Organizer, C. C. Hipkins; Sergeantat-arms, D. E. Tyrell; Doorkeeper Frank Hart; Trustee, Joe M. Johnson Auditors, D. W. Fleming, J. W. Carter, and A. J. E. Hubbard; Delegates to International Typographical Union, E. E. Wear, Chas. T. Graff, W. M. Leavitt, and D. L. Murray. Ex-President Jones then installed President Lawson and the chair announced the next order to be new business.

Resolutions instructing our delegates to Birmingham to use their best efforts to place the city of Washington before the delegates of the I. T. U. to the A. F. of L. as a desirable place of meeting of the latter body in 1902, was adopted.

Resolutions were adopted reciting the fact that Hon. Willis L. Moore, chief of the Weather Bureau, has always been an advocate of unionism in the interests of the printing trades, and by a unanimous vote he was placed on the honorary roll.

Resolutions extending to Printing Pressmen's and Assistants' Union our good will and kind offices during their stay in the city were indorsed. Adjourned.

THE CENTRAL LABOR UNION Labor Day Excursion Preparations

Nearing Completion.

MANY GRIEVANCES REPORTED

Many Organizations Approve Action of Body Relative to Unfair List-Clerks Report Many Stores Complying with Early Closing Movement-Communication from Stationery Firemen of Kansas City-Auerbach Communicates.

President Feeney called the regular weekly session of the Central Labor Union to order Monday night at Typographical Temple. Secretary Dietrich was at his accustomed place.

Minutes of the previous meeting read

and approved. Representatives from many of the trades organizations were present and much important business transacted.

It was reported that a number of the gents' furnishers and other stores had agreed to close during week days at 6 o'clock and Saturday nights at 9

Communication was received from the Central Labor Union of Indianapolis relative to the product of Kingan & Co., doing business under various firm names, handlers of beef, pork, fresh, goods and canned. This corporation has shown a determination to oppose anything like fair treatment to its employees. A committee was appointed by this body to ascertain what local firms handle the product of this corporation. If it is found that this product is handled by the local dealers an effort will be made to discontinue the

Communication was received from Somerset Beach Co. extending the courtesies offered on a former occasion.

Communication received from Joseph Auerbach stating he was ready to inaugurate the early closing movement in his establishment when the movement is adopted uniformly by other merchants in his vicinity.

Grievance committee reported pro-

A lengthy communication was received from Local No. 1, Brotherhood of Stationery Firemen, Kansas City, Kansas, relative to their grievances resulting in placing the Cudahy Packing Co., of Kansas City, on the unfair list. The communication recited various acts of unfairness on the part of the management toward the members of Local No. 1, which ended in their members being summarily dismissed.

An appropriation of \$10 was made in behalf of striking machinists. It was decided not to publish the un-

fair list before July 18. Considerable discussion was had rel-

ative to the proposed Labor Day outing and excursion at Glen Echo, on Monday, September 2 A large number of organizations re-

ported their approval of the action of this body relative to the placing of a number of firms on the unfair list.

Personally, the only kick I've got to ring up is that the chairman of the entertainment committee did not attend any of the functions; but seriously, John Meyers was truly missed and his anxiety to be with the delegates was no greater than their desire to have him.

If the souvenir was published nearer election time there is no doubt but it would have contained more useful information concerning the press room of the G. P. O., and less about Russia and the evolution of the printing press. However, the visiting delegates did not forget to remark the striking activity of the workers and the cleanliness of the room. The Contract Labor Law.

A large number of labor organizations throughout the country have and are sending their protests to the Treasury Department, Senators, and Members of Congress complaining that the Alien Contract Labor Law has been permitted to become a dead letter.

The labor organizations charge that the country is flooded with contract laborers, brought in during the present year, with the knowledge of the officials of the Immigration Bureau. It is

In 1892 Columbia Union honored him by electing him vice-president. He was well and favorably known and had for a number of years been employed in the Government Printing Office, being on the rolls of the Fifth Division of that institution at the time of his demise. His remains will be taken to Philadelphia Thursday night, where interment will take place.

The stationary firemen of Pennsylvania will go on strike on July 15, if they are not given the pay they now receive for eight hours a day instead of for twelve hours. If the strike is ordered every coal mine in the anthracite region will be closed. Over 150,000 mine workers will be thrown out of work, while the mines will be greatly damaged by the stopping of the pumps.

The strike at Montceaux les Mines, in France, has now lasted for nearly five months, and at this period presents the curious aspect of the French government practically supporting the strikers. The minister of the interior has even offered to find employment for the strikers in other quarters, and the condition of the operators has been much improved. Government supervision over all labor disputes is a much more popular idea in France than it was before M. Millerand, a Socialist, became minister of commerce, and, incidentally, the sympathy for so-called trades union methods has increased. It is owing to this element, encouraged and interpreted by such Socialists as M. Jaures, M. Viviana, and the minister of commerce that the discipline of the Montceaux miners has been attributed.

In reading over "Flotsam and Jetsam," in a recent issue of THE TRADES Unionist, I was greatly interested because it made mention of several names well acquainted by myself and James D. Avery, 1738 Pa. ave. thousands of other printers. A. F. T. Fitzgerald, 54 H st. Bloomer speaks of Sam Hoyt, who I C. S. Georgius, 637 H st. worked with in Bradford, Pa., along in Charles Graefe, 37 C st. the early '80's, but who passed away in August J. Kottman, 315 G st. New York, some four or five years ago. W. J. Murphy, 63 H st.

round printers I ever worked with, and he could tell a story with any of the B. C. Braden, H st., bet. 11th and 12th. boys. Sam held a four-day "sit" on Chas. W. Davis, 201 H st. a Sunday paper, and his favorite trip R. H. Davis, 407 H st. on pay-day (Monday) was on the justly G. A dog, one of those measley disgruntled curs, would invariably accompany the two men. It went by the name of "Winkey." Sam would al of Columbia Union, 101, containing the in for a share of the beer. After enjoy- or moral support of trade unionists: ing three or four drinks, Sam would then yell out, "Catch a tail, Winkey," and the way that canine would go around in its endeavor to get hold of street northwest. its caudal appendage was a caution to rats. Finally the dog would succeed west, in catching its tail, but it was so worn out that it would lie there with its tail in its mouth until it had slept off its Allied Printing Trades Label. batch. The beer having about disappeared the two men would carry the empties off and go to their rooms.

Mention is also made of Andy Trades Union Label: Hughes. A few years ago Andy was subbing on the Titusville Herald, and being personally acquainted with him, I want to mention one or two of his peculiarities.

At one time Andy was one of the most stylishly dressed printers in the ranks, and no matter where you met him he would tell, more particularly if you were a stranger to him, of the many different suits of clothes, boots and shoes, neckties, collars and cuffs, and pocket handkerchiefs that he owned at one time. Of course, the amount being so great, your correspondent happened to tell Charley Berry (of Toledo fame), and as soon as Andy came into the office Berry commenced shooting it into him. Andy became exasperated, and turning to me, he said: "You gave out this story," and he then and there out this story," and he then and there made a kick at me, but missed me by several feet. It proved a very disastrous kick, for the poor fellow had on a pair of pants that had seen a good deal of service, and they rent asunder from stem to stern. Well, to cut a long story short, pins were soon coming forward and the pants were pinned up so that Andy could go to a house where Berry had formerly lived, but at that time was very much in disfavor. I accompanied Andy to the house, but remained at the gate while my companion boldly rang the bell. The place was known as the "Fort," and the mother and daughter held the fort. The ringing of the bell was answered by the daughter. After listening to Andy's questions, she went back into the rear room and told her mother, who had already overheard the conversation. She told Andy to wait until she could go upstairs. She was not long gone and under her apron she had what Andy supposed was the pants, but egad it was an earthen vessel and she threw the entire contents ARTHUR D. BENNETT, Manager.

Public opinion goes a long ways towards the right way. That's why the National Capital Brewing Company's "DIAMOND" and "MUEN-CHENER" Beers have such enormous sale—because the public asks for hem and will have them.

The Laboring Man—...

Goodwin used to visit the country offices through Missouri and seduce the likely and capable apprentices away from their employment, keeping stocked up in this manner. Eugene Andrew knew him well and was one of those who took a hand in making it warm for him. One day Goodwin found Eugene's brother working in a neighboring town, a quite competent compositor, having served the greater portion of his time-and began singing his siren song in his ear.

"If you will come to work for me in Sedalia," said he, "I'll give you a dollar a day and you will have all sorts of opportunities. There's my business manager; I took him, a poor boy, off I'll do as much for you."

Young Andrew listened to him, but knowing him, was wise to his ways. "By the way, what is your name?"

There are many nicknames in the fraternity and how easily acquired I will illustrate an instance: In the fall of '88 a number were shaking dice for spare money or any old money in the Denver Republican office, among them a red-headed son of Erin recently from California. I did not know his name at the time but it was Keating. There were side bets, and whenever Keating lost totally he would exclaim, "I got the razoo," razoo being a word with the Pacific gambling fraternity the meaning of which I have forgotten. Anyway it was Keating's shake, and impatiently I said, "Razoo, it's your sex of this room, you may then fully shake. From that others called him realize that the "fool killer is not dead Razoo. Several years later I met him in Chicago, Razoo had been changed to Razzle and by the latter he was generally known.

I have traveled some across this continent and out of it, and the slowest typesetter I ever met was "Rusty" Reynolds. He was not only slow, but as "Iron-foot" Picker would say, was also dirty. I don't believe there was ever a man who could work as hard and set less type than "Rusty." He had a triple back-action circumlutory motion, with chances even that he would pi all outside the rule.

In an office where the acreage was probably 11,000, if "Rusty" exceeded thirty-eight hundred he got a pick-up that needed no correction. He spent hours in throwing in and polishing sticks, and Charley Lindsay, who never had time to throw in, knew he could borrow from "Rusty."

It is no mitigation that in the case I complain of no name was used, for the fact referred to was so isolated that its to every reader in the Treasury Branch. The item itself is unredeemed by wit or point, and simply discloses ill-mannered vulgarity. I am not supersensitive to a joke at my expense, and can tolerate the usual straining of fact to accommodate the necessities of wit, but I draw the line at stupid malevolence. The objectionable paragraph, as it appeared in the notes from the Treasury Branch, reads: When you see the wild yellow lillies floating around in the hands of the fair Verily, an old fool is worse than all fools.

I have been guilty of the alleged imbecility of distributing wild flowers among the ladies of the Treasury Branch, in the printing department, since early spring; and the gift has comprised not only lilies (Lilium Canadense), but Violas, hepatica, caltha, ranunculus (butter cups), aquilegia, Claytonia, arisæma, Houstonia, azaleas, cornus, hypoxis, sanguinaria, cercis, Kalmia, echium, chicory, asclepias, Tradescantia, lupinus, tephrosia, phlox rosa, coreopsis, crysanthemum, Rudbeckia, etc. My purpose was to cover the flora of the District, from spring's first sweet anemone to the graceful golden rods and aconite

of the fall. Being a stranger in this branch of the service, and desirous of Louisville Courier-Journal cultivating friendly relationship it occurred to me I could scarcely adopt a less objectionable way, since without a ures of botanizing, and whose narrow souls never echo in sympathetic vibration with the joys of others, my sanity will still continue doubtful. But, as I am assured by those whom I am most solicitous to please that my method and manners are unobjectionable, I can afford to ignore incompetent judgment.

I desire to publish the following note of encouragement, designed, in ladylike tenderness, to mitigate the painful effect of an uncalled-for blow, as a of Columbia Union, 101, containing the means to express my sincere gratitude names of the following printing offices, to the ladies of the Treasury printing which should not receive the patronage branch for their kind token of respect or moral support of trade unionists: and approval:

MR. ECCLES:

The ladies regret that they were indirectly the cause of the unkind article in THE TRADES UNIONIST and wish to express their appreciation of your kindness and assure you that your beautiful flowers have always been welcomed. THE LADIES.

FRIDAY, June 28, 1901.

dence of folly, there can scarcely be a doubt but that my severe critic, with worldly-wise and wicked sagacity, has figured up my motive as an indirect but manifest attempt to transfix some susceptible heart; and when he considers my years and homely exterior he is satisfied he has made out a clear case of idiocy. Nothing of less consequence than burning affection would elicit such an effort to please on his part, and so he presumes it to be mine.

Courting women in colonies is not a successful method of winning any. They will share their friendships with each other, but are very jealous about their loves. If my intentions ran in the direction indicated, there might be room for the inference that my mental machinery had slipped a cog, but I am old enough to know better. Having read the experience of Samantha's spouse at Saratoga, Oliver Wendell Holmes' disappointment with the beauty he thought he had captivated, and numerous other wrecks of blighted infatuation (not to mention my own past failures), my aptitude for emotional soaring is now very weak. A woman's friendship is always valuable; her love is sometimes an overcostly gift. I know the proprieties of life, and shun all printing done for them. Patronize visionary pursuits. So "the flowers I

to do" with any love case. Standing in the way of all sociability between the sexes are the sensual vultures of society who watch on high for the carrion of scandal and gloat on proving humanity base. Pretending to be guardians of social honor their sole delight is in spreading the noxious effluvia of rottenness and in besmirching some one's good name. As a consequence, men and women of genial instincts are kept as far apart as if they were beings of a different species, unrelated by bonds of sympathy. Taught to gratify their desire for sociability clandestinely, they feel that they are half culprits when found in each other's society. This condition breeds the very element that debases. We will never have a frank manhood or womanhood till these social buzzards are frowned out of existence and given to Fine Wines and Liquors, understand that the giving of flowers or delicacies is a perfectly proper method of displaying friendly interest

and the friendships established are nobody's business but the parties con-

cerned.

As to my age, that, perhaps, is my misfortune; yet, I am thankful it is far derwear for about enough advanced to see the folly of the price of two- needlessly injuring any one's feelings regular 50c grade in and the pleasures that flow from good

The business sagacity of the editor should be able to see the advisability of holding correspondents to parliamentary courtesy, or if he allows a pleasant 'scrap" to stop all hitting incognito and "below the belt." humorous exaggeration; or to refer to him, if old, as a fogy fossil of paleozoic times might pass muster; but to lug in an unoffending stranger, too much engrossed in minding his own special business to be aware of another's emnity, and dub him a plain every day "old fool," is simply unpardonable, since it is too utterly commonplace and matter of fact to pass for raillery or humor. We all like banter, and delight in the scintillating flashes of a dialectic duel of wit, but when it ceases to be good natured it ceases to be interesting or profitable, and should be stopped.

PAN-AMERICAN EXPOSITION.

An Interesting Description of Some of Its Marvelous Creations.

[Special Staff Commissioner.] BUFFALO, N. Y., July 8, 1901.

The Midway at the Pan-American Exposition is said to be almost as complete and meritorious as the one at the World's Fair at Chicago, and it is certainly entertaining and instructive enough to satisfy the desires of ordinary mortals. There is nothing really dangerous about any of the performances and they can all be enjoyed without fear of accident or harm. Followng are some of the most meritorious:

The largest of all is the Indian Congress, and it well repays a visit. There are about 700 Indians, representing 42 tribes. They give dances representing war, peace, religion, and other phases of their life, all exactly representing the real thing, and close with a very realistic Indian sham battle. Theft of a Labor Bill.

The employers' liability bill passed by the recent session of the Colorado Legislature has been stolen from the official files in the Capitol at Denver. Lieutenant-Governor Coates, who is a member of the Pueblo Typographical Union, said:

"If the bill or a portion of it has been stolen, it has been done deliberately and with the sole intent of invalidating the law. When the bill was pending, it was bitterly fought. Every effort was made to defeat it. The theft comes as a stunning blow to the working people of Colorado. It was the one law the working people wished to have passed and the one for which the friends of labor made their hardest fight."

Labor Notes.

Two years ago there wasn't a sliver of fence on what is now Mr. Watson's 7000-acre farm. He bought seven quarter sections for \$35 apiece and accrued taxes. He had nine head of cattle then. He has 500 head now. Out of his profit he has kept buying more land until he has got a very likely farm. He has made \$12,000 free and clear in two years.

The New York Sheet Metal Workers at their last regular meeting adopted an amendment to the constitution of the union prohibiting members from Fine Wines and Liquors. joining the volunteer or standing army and navy, except in time of war between the United States and a foreign

nation. The feeling that prompted this action is that there is a growing tendency to utilize the military power not merely to preserve order and prevent bloodshed, but to suppress strikes.

Three of the largest shoe manufacturing firms in Plymouth County, Mass. have agreed to ask their employees to work but fifty-four hours a week during the summer. Two of these firms have decided also to follow the same schedule throughout the entire year. The men will receive as much pay for their fiftyfour-hour-week as they formerly received for their fifty-nine-hour-week. The change was made voluntarily, and apparently because employers believe COATS CUT TO YOUR MEASURE that just as much work would be done as before. The same experiment has been made in other industries, and seemingly with success. More and more in New England the manufacturers are trying to produce a higher grade of product rather than a cheaper grade. To get the best results, says the Boston Advertiser, it is necessary that the workmen shall be far above the average in intelligence and efficiency. If shorter hours of labor will bring about this result, then it is economy to shorten the length of the working day.

Driscoll's, N. Cap. and Gsts. Firemen Strike for Eight-Hour Day.

The stationary firemen in the mines in the Pennsylvania hard coal regions, numbering about 1,200, went on strike last Tuesday for an eight-hour day. In most of the mines the operators anticipated the action of the firemen by closing down indefinitely. The strike inhave declared that they will refuse to work with non-union firemen. The operators will find it difficult to keep the water out of the mines, as the pumps must be kept steadily at work. The demands of the firemen in the factories in the region where the mines are situated have been uniformly successful,

Labor Papers Sustain Unions.

A union that retuses to sustain a labor paper by its good will and patronage is injuring itself more than any one else. The membership can not be kept in touch with what is going on in the labor world except through a labor paper. Go to any city where unionism is thoroughly entrenched, and you will find that a copy of the local labor paper goes into the home of nearly every union man in that city. The result is that the members of all unions are are well organized, and the engineers of every opportunity to strengthen the World.

A Servant Girls' Union.

The Chicago branch of the Woman's International Label League is to start a crusade for the organization of a union of the servant girls of that city. The work of organizing is to begin at once. The union will announce a regular scale of wages. An eight-hour day will be demanded, with extra pay for holidays and overtime. It will also be stipulated how many afternoons in each week a servant girl may have for recreation. It is estimated that there are more than 60,000 girls and women in Chicago who will join in the movement. They will work in sympathy with affiliated organizations of female

One of the greatest struggles between capital and labor has been maugurated sociation of Iron, Steel and Tin Workers of the establishments under control of the American Tin Plate Company, American Steel and Wire Company, American Sheet Steel Company, and Steel Corporation.

On July 1 of each year the various district unions of the Amalgamated Association present their scales to the employers for the current year. It usually ends in a conference, and with few exceptions favorable concessions to both interests are made, resulting in a harmonious adjustment of the difficulty. The executive officers of the Amalgamated Association have been aware for some time past that a conflict with the new trust organization was inevitable, and have been quietly organizing among the plants that were considered as non-union, with the reresult when the conference failed of classed as loyal to the corporation be- No. 101. James E. Cogan, president and business agent of the Bookbinders' Union of Philadelphia, Charles T. Weimas, and Stephen O'Shea, ex-president and secretary of the International Brotherhood of Bookbinders, visited this city last week and were the guests of J. L. Feeney, president of the local Bookbinders' Union:

On Saturday night a smoker was given in their honor and a large number of the members assembled at Typographical Temple. W. C. Connor was chairman of the committee. Refreshments were on hand in abundance, and after the waiters had performed their task an excellent musical program was rendered interspersed with speeches by the visiting trio and members of No. 4. Thomas J. Quigley, Ferd Hofman, G. F. Kirch, and Bill Long were heard in vocal selections; Charles Weston and John Dwver in recitations: Charles McEnaney, Ben Spellbring, John Weidman, and Ed Burkhardt in musical selections. Bill Long introduced a bone solo and sang his great song, "In the Shadow of the Rock; the chorus was sung by all the memwith effect.

At a late hour when the fluid that cheers had become exhausted the meeting adjourned; every one present had a good time and all went home singing, 'In the Shadow of the Rock."

Organizer F. C. Roberts

In the settlement of the machinist trouble at Seneca Falls, N. Y., too much credit can not be given to F. C. Roberts, special organizer of the A. F of L., for the able and efficient manner in which he handled the trouble at that point. Mr. Roberts entered into a new field with a limited amount of information of the subject in dispute, but with perseverance and pluck that are dominant in his nature, applied himself to the settlement of the questions at issue. That his efforts were successful is evidenced by the fact that the American Reid died last Saturday, July 13, of Fire Engine Company, employing over 150 men, signed a scale giving 5 per cent increase in wages and 54 hours a week. KENNEDY (Sadie Maguire), who believes in the adage "Hew to the line; let the chips fall where they will," as has many times been attested by his pen, a recent occurrence being his tilt with the Central Labor Union of Omaha, wherein that body placed The Western Laborer under the ban. May The Western Laborer see many more birth.

Electricians' Strike Ended.

On Thursday last was inaugurated by International Brotherhood of Electrical Workers' Union, Local No. 26, a strike for a wage rate of \$3 50 per diem. The action involved some 125 inside linemen, wire workers, and helpers. From the concerted action of the men in promptly quitting work the movement seemed well planned, and it evidently was, as the Contractors' Association signed papers Friday night in effect granting nearly every demand of the electricians. The increased wage rate does not go into effect, however, until January 1, 1902, owing to the figure at which the Contractors' Association had taken many contracts now pending. The agreement signed Friday night by both parties goes into effect for two years from July 15, 1901. Both the Contractors' Association and Local No. 26 are to be congratulated upon the short life of the strike and the satisfactory adjustment arrived at.

Did you ever watch a "rusher"—not the growler escort, but one of these type-sticking whirlwinds? It's amusing. He is the cuss whose daily struggle in an effort to do a half-dozen men's work brings hideous nightmares of two type-setting machines being introduced in his place in the G. P. O. He is the moving picture who glitters the most brightly when the Boss is looking; who walks the more rapidly in the vicinity of the Desk; who prefers to retain the juicy beads of sweat upon The camera fiend caught a squad of his brow, that, perchance, the Boss may see and admire; who blushes it his eye should happen to meet the strong orb at the electrically-fanned throne; who surreptitiously borrows duce the boys to let go of a quarter for his unfortunate neighbor's sorts that he may blow up his own average; whose great and only interest in Union affairs is voting for the Desk's candidates and against its opponents-and who, mind you, stands around on wabbling legs, pale about the food orifice, and with the Fifth, dropped in for a moment last rolling eyes upon the mere rumor of a possible discharge!

RETAIL CLERKS' CONVENTION. Tenth Biennial Meeting at Buffalo Enacts Needed Legislation.

The Tenth Biennial Convention of the Retail Clerks' International Protective on Tuesday, July 9, 1901.

There were 215 delegates present, representing 150 local organizations.

This was the largest convention ever held by this association, whose growth has been phenomenal, having grown in four years from a membership of 1,600 to its present strength of 30,000.

Owing to the increased membership, which has made this almost a new organization, important legislation was necessary, particularly in changing the constitution, which was found to be inadequate to the present demands of the International Association. The following are the most importing changes made:

The death benefit was increased from \$50 to \$100.

The International secretary-treasurer was empowered to place four general organizers in the field, covering the entire jurisdiction of the association; also to appoint a business agent in each of the following named cities: Chicago, Boston, New York, Philadelphia, and

An auditing board was elected to audit the books of the secretary-treasurer at least once a year. This work has been done heretofore by the executive board the week previous to the convention, the increased membership having made the old plan impracticable.

The salary of the International secretary-treasurer was increased from \$1,000 to \$1,500 per annum.

During the course of the convention the following representatives of national and international organizations were granted the floor and addressed the delegates: Henry White, secretary of the United Garment Workers of Amer- the beer, cigars, and sandwiches at the ica; James Lynch, president of the smoker, a trolley ride and a catch-as-Metal Polishers, Buffers and Platers, catch-can tussle with a meal at Glen and John F. Tobin, secretary of the Echo, a free ride to Mount Vernon and Boot and Shoe Workers' International

Financial assistance was rendered by the International to our Canandaigua, N. Y., local with which to secure legal services in behalf of seven members of that organization who had been indicted for conspiracy. These brothers were exonerated before the adjourn ment of the convention.

Heretofore the West has held the balance of power on the executive board, but at this convention the East massed its strength and made the election of officers a hotly contested affair, coming out of the fight with the follow ing officers to their credit: President, second and third vice-presidents, two delegates to the A. F. of L. convention, and one member of the auditing committee. The newly elected officers for the ensuing term of two years are: President, J. R. O'Brien; first vicepresident, H. J. Conway; second vicepresident, G. B. Squires; third vicepresident, C. A. Reilly; fourth vicepresident, J. F. Rudincki; fifth vicepresident, G. S. Babcock; sixth vice president, S. J. Williams; seventh vicepresident, W. F. Hauck; secretarytreasurer, Max Morris; delegates A. F. of L., J. H. Devine, H. Hamilton, and J. A. Johnston; auditing committee, F. Loeffler, S. J. Griffin, and O. M. Dick. Zanesville, Ohio, captured next con-

Convention adjourned 1:30 p. m., July 13, to reconvene at Zanesville, Ohio, July 9, 1903.

Handy Andy's Aphorisms.

Remember it costs you twice as much it does a printer.

Will the loafer who purloined the entire contents of friend O'Leary's refrigerator kindly return the photograph to his residence (you know where it is) and no questions will be asked.

The almighty dollar is such a strong B factor in the make-up of some anatomies that the principle is prevented from asserting itself. Some non union feeders, D. J. KAUFMAN, realizing the fact that there is something doing, are waiting until the eleventh hour to save a month's dues.

> You might think that a pressman who had a sweetheart among the non-union Pe feeders might be able to influence her J to join the fold. Well, maybe he will; but if he don't you can safely put your money up at odds that she'll rule the S roost after the orange blossoms wither. S

Foreman O'Leary is on his way to the Pan-American Exposition at Buffalo, and the genial John Meyers is at the helm, with "Josh" Lucy as a running mate. When O'Leary returns Meyers will take a peep at the Bison City's show and spend a few days with our old-time friend Iim Scott.

Since Charlie Brill issued membership cards to the committee that arranged for the recent banquet at the Rock Spring Club House he has had no reason to regret having made such an acquaintance. However, Charlie Association convened in Buffalo, N. Y., might better have your spare change than Bobinger. By the way, the nonunion feeders ought to patronize Cabin John Bridge. They ought to hold a barbecue, clambake, or some sort of a jamboree out there just to encourage their short sighted brother. Bobinger says "to h-l with the unions." Same to you, "Bobby."

> Consistency, thou art a jewel! When a member of the convention committee-one well fixed in a preferred job and the proprietor of several acres of farm land-makes a lusty kick about spending a dollar of his own money as his share of pay for a group photograph wherein to perpetuate the memory of a now famous contingent, and then willingly votes to expend \$30 of the convention fund for the purchase of silk handkerchiefs for some of the ladies, it is about time he was presented with a volume on social economy. Now, in order to break even, I would suggest to this farmer-pressman that he bring a number of the photos into the press room and sell them to curio seekers.

When the convention committee finishes its labor and collects all outstand ing amounts due the Union will be about \$900 to the good, and all because a good set of hustlers put their shoulders to the wheel and raked in sheckels sufficient to cover all legitimate expenses and have this sum left over. Of course this balance is less than the amount of the contingent fund raised by assessment on the members during the year, and hence some short-card guys would like to have the balance divided pro rata. Mind you, they all had a dash at a camera lens tested on their mugs, a banquet at Rock Springs-a good return for the money under the circum stances—but they want what's left. Well! Well!! Well!!!

COLUMBIAN TROUBADOURS.

Engagement at Glen Echo Park August 4 to 10, 1901.

The Columbian Troubadours, comcouraging progress in the plans of the prising some of the best musical and comic talent of the city, have been engaged for next week at Glen Echo Park, and those who enjoy good music card had been adopted by the Building and the antics of the comedians will not make a mistake in attending. The following is the array, many of whom

Thomas J. Quigley, Mr. Stevens, and Thomas L. Jones, tenors; John R. Purvis, baritone; Arthur E. Middleton, basso; Finley S. Hayes, Billy Morsell, John Gordon, and James H. Cathell, equilibrist; Miss Marie Hodgson, toe dancer; Miss Linnie Gee and Master Elmer Donn, impersonators; David C. Bangs, dramatic reader; Charles F. Purdy, character mimic; and the Pan-American Mandolin Quartette-Messrs. Holmes, Todd, Stuart, and Bryan.

So many have heard the grand basso of Arthur Middleton, the manager; the sympathetic and well-trained baritone of John Purvis, and the tenor robusto of been against labor as an organized Thomas L. Jones that no introduction force, but no issue was taken with the for them is needed. These, with Mr. Stevens as first tenor, make a quartette that has few equals in the city. David C. Bangs was an apprentice in the Government Printing Office years ago, but left the trade for the stage. Finley Hayes and Charlie Purdy, in their respective specialties, are no strangers to the readers of THE TRADES UNIONIST. The remainder of the company size up very well with those particularized above, and under the able stage managership of Finley Hayes have been brought to work so harmoniusly together as to guarantee an evening of the trade union is a great conservative pleasure.

Manager Laffan's Duplicity Toward Officers of No. 6-Inhuman Treatment of Old Employees-Benevolence of No. 6 Toward Its Unemployed and Infirm Members-Labor Papers Throughout the Country Taking Up the Fight.

The history of the New York Sun boycott is a long chapter of deceit, hypocrisy, and double-dealing on the part of the Sun management. From the time of the lockout, nearly two years ago, all the cunning, diplomacy, and duplicity that could be mastered has been put in force to attempt to check the vigorous onslaught of Big Six against the Sun management. The attitude of the Sun for years past has management while the scale of prices of the unions were paid. From the inception of W. M. Laffan as manager of the Sun it was feared by the members of Big Six that trouble would be had with the Sun, and he has not disappointed them. The struggle for the past year or more has been a trial of strength between the Sun and the principles of unionism, not only of the unions directly involved, but of men of principle everywhere, whether allied with a trade union or not, men who believe in fair play and who know that force and worthy of the esteem of the

When we weigh the good accomplished by Big Six, which in five years has paid out \$140,000 to its unemployed and incapacitated members, and paid out \$40,000 for funeral benefits in the same period of time, it can be readily seen that it is a factor for good in the community, aside from the maintenance of a fixed wage rate that insures good pay to its members and natural advantages to the public in having a more liberal allowance to expend as a consumer. Big Six has paid out \$60,000 to its members who were summarily dismissed on the Sun, some of whom had and had spent nearly forty years with great walker and not much of a drinker. the various managements, only to be

THE chief hindrance to the advance of workingmen is their misunderstanding and suspicion of each other. Workingmen generally would approve, join, and support the union if they had a clear understanding of what the true spirit and objects of the unions are.

When we consider that the point at which the general worker comes into touch with the union man is usually at the point of conflict, when it appears to him that the union man sets himself up as a meddler, a tyrant, and a bulldozer and when most that he reads in the papers tends to confirm and inflame that opinion, we should not marvel nor blame the brother for his mistaken ideas.

The Barber & Ross Strike.

The strike of tile layers employed at BARBER & Ross appears to have been in the nature of a surprise to that firm. In January, 1900, Local Union No. 2, considered as flattering inducements in promising steady employment, succeeded in securing men enough to carry on the contracts made, and by gradually reducing wages until a \$2.50 day was reached succeeding in demoralizing the trade by underbidding fair employers. Steady employment being an incentive for remaining with the firm, the men became dissatisfied and finally asked for a restoration of the Union scale. This being refused, the men went out on strike, and are being taken care of by the Union. It is claimed by the members of No. 2 that Mosaic Marble Workers' Union No. 8902, have taken up the work now in hand by BARBER & Ross, and a protest against a continuance of it will follow. THE TRAMP OF OTHER DAYS.

When Washington was signing bills And all the land was new, Did tramps roam o'er the countryside As modern wand'rers do? If so, how hard it must have been

To tramp in olden days, Before inventions came to aid The tramp in divers ways No graded railroad mile on mile

Was his to pace at ease, Soft balm to weary knees: But over pike and stony path He sought his aimless ways; Forsooth, no joke it was to be A tramp in other days! The luxury of modern tramps

By him was never known;

Or empty freight his own The meals he got were far apart, Because in days gone by The towns were scarce, the dwellings few And people kept their pie.

Ye tramps, a-tramping now For tramping is not half as hard As once it was, I vow. Be thankful then and fancy how Much better off you are

When Dr. Parkhurst Sprague accompanied the remains of the late Mr. Harris to his old home in New Jersey he took a sneak trip over to New York City to have his hair upholstered and buy an appropriate neck rigging. On Broadway he was greeted by no less than three men, who shook his hand and recognized him as an old friend of the family out in Oshkosh. Doc. was on the lookout for gold brick men and guys with satchels full of money to give away, and so it was that he absolutely refused to loosen his roll. He confided to me, however, that all he had was a return ticket and 30 cents, and he felt just that way. He says he didn't mind telling a man that he only had three dimes, but if a woman had accosted him he would have been dreadfully ashamed to confess his financial dis- Fine Wines and Liquors.

Differences Not Yet Adjusted.

No conclusion was reached at the meeting of the directors of the Cahill Writing Machine Manufacturing Company on Monday regarding the disagreement between the company and its machinists. The machinists were not at work Tuesday, although both the men and the representatives of the company say that no strike has been declared. The matters under dispute are said to be minor differences, and neither side cares to discuss them for

Some people thrive best on newspaper accounts of episodes which occur most frequent under the cover of darkness and which the morning papers make prominent with "scare heads" and offer as a delectable part of our morning repast, supposedly as an aid to better digestion and something to talk about during unoccupied moments. The Ayers-Bomne tragedy was a success in its startling introduction, and as time approaches for trial interest is growing in contemplation of what will be disclosed by evidence now being gathered. The strange thing about this case is that some people speak of it as though it were the only one on record, whereas it is only a duplicate of thousands of others. It is the same old story-naughty man, foolish woman, loaded gun, undertaker, tears, regrets, and hindsight against foresight. Oh, that people might be good.

That man is to be pitied who has put in from seventy to eighty years waiting and watching for the millenium to dawn and at the end of his allotted time as a dweller of this mundane sphere sees no more visible evidence of the fulfillment of his cherished dream than when he first embraced the faith that in his day and generation the lion and the lamb would cancel all their differences and lie down peaceably together, when swords would be converted into plowshares and spears into pruning hooks, and when a man's pocketbook would be as safe anywhere as when under lock and key, and when, finally, man would love his neighbor as himself. IT seems a pity that in this age of the world there should be a single wageearner who does not realize the advantage of organization and of belonging to a labor union, and those press feeders of the Government Printing Office who are standing out against it must be victims of bad advisers. With the example before them of the advantages gained by the printers, the bookbinders, the lady binders, and the pressmen through their unions in the way of short hours, increased wages, and leave with pay, and with the knowledge that the Public Printer and all those in positions of authority are firm friends of organized labor, it is strange that there should be any hesitancy about falling into line. There can be no disadvantages, saving possibly the trifling matter of dues, and in every way these ladies will advance their interests by connecting themselves with an organization that will have the sympathy and support of every union having members employed in the Government Printing Office as well as all organized labor. In no quarter can it work to their prejudice, and by no possibility can it result in anything but good, besides preventing any unpleasantness that might result from their continued

FLOTSAM AND JETSAM.

Charley Leeds, with a Sketch of His G. P. O. Career, Together with an Enumeration of Those Whom Carlisle, Pa., Has Contrid'Orsay's Narrow Escape from Death- personally acquainted with them : Two Former G. P. O. Boys, John Herbert Page and Charles L. McAfee.

Owing to a combination of adverse circumstances, such as hot weather, a few days' leave, a short, sharp, but decisive illness, and an acute attack of indisposition to write, I have been compelled to accord to the reading public a brief respite, which will probably be continued until September. But as some matter came to me very easy this week. I will use it as a notification that I am only resting and have not yet got my constituency educated to a point where I can drop them and leave them to their own devices.

Referring to old timers, one of the best known printers in the big workshop, Charlie Leeds, of the First Division, began his twenty-first consecutive year on the 5th of July. Leeds landed in Washington in the momentous days of 1881, when President Garfield was assassinated. Reporting for duty in the old Document Room, he was assigned to alley 47 by Assistant Foreman Spottswood. The occupants of the alley were Capt. George Whittington, Frank West, Charlie Eve, Frank Baker, Little Joe Ridgway, and the newcomer. Whittington, invariably every Saturday evening, before the whistle blew, would start of with "Safely through another week we have come at last." West, Ridgway, and Whittington long since passed over, and, I think, Charlie Eve, than whom a wittier man never breathed.

Leeds hails from Carlisle, Pa., the birth place of a host of printers, many of whom have at different times labored in the G. P. O. Among them, and one of the very first to reach here, was J. M. A. Spottswood. Of others whom now recalled were John Felker, George Shrom, Sam Elliott, Curt Wise, Bill Ensminger, Tom Moore, Ephraim Mac-Murray, George (Chip) Spencer, Jim Bixler, Jos. S. Cornman, brother of Eph., William G. Spottswood and Wilmer Wetzel (both well known employes of the War Department for several years past), Eph. Cornman, Alex. P. Beatty, Abner W. Bentz, and others whose names can not now be recalled. But this is a very good showing for one

#### Down Town.

John Adams has departed for his old stamping ground-Pittsburg.

Some of the lady feeders of the Treasury Branch were seen at Cabin John Saturday night. How about it?

Frank Fisher, an old Washington boy, is here on a visit from Philadelphia. He is holding down a machine at Avery & Johnson's.

Jim Howell, formerly on the day side of the Post, has gone to Pittsburg, his old home. He reports work for operators as extremely good.

Bill McSween strolled in from his summer home yesterday and was a noticeable figure on the Avenue. He has spent an enjoyable summer chasing potato bugs. He intends to stay until after the White House concert Satur-

Our friend, Sam Koockogev, will never take all his leave again at one time. One of the most pleasant days of his leave was spent in Rock Creek cemetery, where he read his book and talked to the babies and the ladies.

One warm day Bill Lang had his long thirst with him but his capital was very small, the amount in his possession being three cents, and Bill was racking his brain to find out how to raise the other two cents. At last he remembered a lady who had postage stamps, Rev. Charles Huss, of McKeesport, so he gave her a brace and obtained a two-cent stamp. The next move was to cash the stamp. So Bill visited a lady at the other end of the room and told her about a poor sick man who wanted to ride home and had given him the stamp to sell. The lady bought it, and when the whistle blew Bill was the first man in where they have re-freshing fluids. He went home singing, "In the Shadow of the Rock. Cow Boy.

Staff Correspondent THE TRADES UNIONIST.] CINCINNATI, August 10, 1901. The "Patton Special" to Birmingham arrived on time at 5 p. m. Friday, bearing delegates-elect and visitors to the I. T. U. convention. The trip from Washington was devoid of any incident of an exciting nature and was thoroughly enjoyable to the party. Owing to some misunderstanding, the special car was cut off the C. & O. train and run into the L. & N. depot from Newport, Ky., and occasioned a slight dethe combined steel mill companies, and WHEREAS, The Amalgamated Associnnati union, who were waiting at the cinnati union, who were waiting at the Grand Central station to escort the party to headquarters at the Grand Hotel. The number of delegates-elect and visitors from other points was considerably augmented by the addition of the Washington party, which gave an air of bristle to the lobby of the Grand Hotel that reminded its habitues of convention times long past in the Queen City. Arrangements had been made with the hotel by the reception committee of No. 3 to look on any of the visiting party's money as counterfeit, and after several attempts to pass the

Here full justice was done to the card presented, and the inner man replenished. Every want was supplied, and after a short respite the party started out in groups of five or ten to see the city under the electric lights. "The Nonpareil' (Moxy's), a recognized printer joint, was visited, and a tour through the Atlantic Garden followed, without ever hesitating, greatly to the surprise and wonder of the select few present at that hour, who indulged in good-natured badinage at the expense of the party. The party finally crossed the Rhine, visiting Wielert's, where a good concert was heard and the usual liquid refreshmade to get Charley Graff to recite his original "pome," but the poet was not preamble is acted upon by local unions.

OVER 200 DELEGATES PRESENT

President Lynch Presides-Largest Meeting Ever Held-Representative of American Newspaper Association Addresses Body-Home Subject-Matters To Come Before the Convention - Sympathy and Moral Support Extended to the Amalgamated Association Strikers.

The delegates representing the various typographical, mailers, newspaper writers, type founders, photo-engravers and stereotypers unions of the United States and Canada assembled in convention at 10 a. m. Monday in fortyseventh session at Birmingham, Ala.

At an early hour the city donned a lively appearance, and all indications pointed that there was going to be 'something doing." Many visitors, ex-delegates, and friends accompanied the delegates to this lively Southern metropolis.

President James M. Lynch, of Syracuse, was in the chair. The report of Secretary Bramwood, of Indianapolis, giving the credentials list, was adopted. call was made for all to file upstairs to President Lynch then announced the standing committees.

Delegate Govan, of New York, offered a resolution to consider the relation of taxation to wages, which was referred. The sympathy and moral support of the union was extended to the Amalgamated Association of Iron, Tin Plate and Steel Workers in their difficulty with the United States Steel Corporation by a rising vote.

On Tuesday the convention decided, by a vote of 84 to 76, to submit to a referendum vote the preamble of the proposition allowing the stereotypers and electrotypers complete autonomy and to control charter and organize members of their craft. Details of the ments indulged in. An attempt was plan of separation were not discussed, and will be allowed to rest until the

During the afternoon Frederic Dris-coll, commissioner of the American Newspaper Publishers' Association, addressed the convention in behalf of the newspaper publishers. He congratulated the delegates upon the establish-ment of the principle of arbitration in settling difficulties arising under contracts between the publishers and their of the publishers connected with the association.

President Lynch submitted a supple mentary report regarding the joint ownership of the label as well as the opinion of the attorneys of the Inter-national Typographical Union to the effect that joint ownership of the label

is a legal impossibility.

In view of recent criticisms of the

President Lynch will point out the organizers are appointed by the Executive Board for a period of one year. In his recommendations the president will also urge that the various unions put forth their energies and best efforts to promote the use of the union label,

The arbitration agreement by which differences between the employe and employer may be settled will be com-mended by the president, and the atrangement between the bookbinders, pressmen, and printers, and radical changes recommended.

The president will also touch upon the subject of organization of newspaper reporters, and it is understood that an attempt will be made by local unions to legalize the admission of newspaper reporters to membership.

The secretary's report shows that the total membership of the Typograpical Union numbers 33,552.

A well-thumbed dictionary bespeaks At last the organization of military

companies within the ranks of labor unions has come. The following telegram speaks for itself:

WHEELING, W. VA., Aug. 4.—"Our military organization will be purely local, and will be in no wise answerable to the State. It can not be removed at the will of gold-lace military commanders from place to place. manders from place to place. Our interests in preserving industrial property from the incendiary acts of mobs will be just the same as that of our employers, for when a factory burns we lose our employment. We can not be coerced into shooting down men and
women who are merely indulging in
police court disorder, but will always
be ready to give actual protection when
needed. We can urge the further reasons in favor of military organization
that are offered by the many secret and
religious societies which possess milireligious societies which possess mili-tary and benefit features, that they cement friendship and bring closer relationship among members while afford-ing recreation and physical benefit." These are the words of Thomas Fox,

chairman of the Whitaker Mill commit-tee and a leader of Crescent Lodge Amalgamated Association of 300 mem bers, which last night took definite action looking to the formation of two full military companies. The lodge meeting was fully attended, and the military proposal was enthusiastically and unanimously favored. The companies will be in charge of Spanish war veterans, and will be fully equipped with standard arms. The militia idea has been growing for months, and this is the first labor body to adopt it.

At the same meeting the lodge made a voluntary contribution of \$1,500 to the strike fund, and pledged 20 per cent of all earnings as long as needed, and 50 per cent if required to win. These men work in the Whitaker Independent mill and are deluged with orders. Lewis Avon and Mountain City lodges made contributions yesterday, although the men are on strike and supporting themselves. They will consider the military proposal on Thursday and are certain to adopt it.

This is a serious innovation and one which may lead to questions of national importance within a very few years. A great many trades-labor people are connected with the National Guard and various other military organizations throughout the country, but a separate military structure composed wholly of union labor and officered by its own members is, to say the least-startling. Suppose this idea should become general! Read again in the above how the military proposal was "enthusiastically and unanimously" received. What do you think of it?

It is very strange the amount of encouragement a former workingman gets from his fellow-workers in his endeavors to abandon the trade that has cost him his best years to acquire and embark in mercantile business. I know a young man who left the printing trade and sought a livelihood in business pursuits. He was patronized liberally by certain G. P. O. employees, who have succeeded in "beating" him to such an extent as to drive him out of business and into the ranks of the "standing around" union printers. Fine unionism, isn't it?

#### The Great Steel Strike.

Saturday evening after the last turn was made in the mills President Shaffer's long-talked-of general strike order went into effect, and what the result and ultimate end will be no man can foretell, yet from the determined stand taken by both sides it evidently will be to the bitter end.

President Shaffer, in reply to an inquiry whether the Amalgamated would win, stated that "the Amalgamated will either win or cease to exist." This shows the determination of the Amalgamated Union.

To show the tactics of the steel combine one but need recall to mind the newspaper accounts of the intention of dismantling and removal of mills where the employes are on strike. As many own their homes, this is done to weaken them in their determination, but the men look upon it as a bluff and remain

The strike involves nearly 100,000 men, and the public and organized labor generally are watching the out come, knowing that thousands of dollars will be lost, many men will be idle, great distress will follow, and if Homestead, Lattimer, and Bull Pen are examples, which God forbid, death and bloodshed will be among other acts re-

Now, fellow-unionists, it is up to you whether he has or not, and whether an employer has the right to tell men they can not organize for protection, and if they do so they will be blacklisted and mitigated against.

The public have a right to expect Congress to take a hand in a matter like this that upsets business conditions, produces hardships, poverty, and crime, and organized labor have more reason to dissuade their membership from joining the militia, which, apparently, is only called into service to shoot down men who are defending their right to support a family and be treated as human beings.

#### Visiting Delegates Feted.

Last Thursday evening at Hotel Fritz Reuter, on Pennsylvania avenue, delegates elect en route to Birmingham Ala., to attend the International Typo graphical Union Convention which con vened Monday at said city, together with ex-delegates, guests, and members of Columbia Union enjoyed a very pleasant social literary entertainment and banquet.

Each guest found at his cover on the festive board a neat little gilded iron hammer upon which was the appropriate inscription, "Stop knocking," which was attached to a card bearing guest's name. At intervals during the speech making they were used freely.

Mr. Joe M. Johnston, our trusteeelect, acted as toastmaster, and to say he did the honors in fine form would be stating it mildly.

A telegram was received from Frank Morrison, secretary of the American Federation of Labor, regretting his inability to attend and wishing guests and all a pleasant and instructive evening. Both President Gompers, of the American Federation of Labor, and himself were in Pittsburg on business relative to tho steel strike.

Charlie Thompson, foreman of the Post, has gone on an extended trip to recuperate, after one of the busiest ad. seasons in the history of the paper. Hard work and the excessive heat has worn him out but it is hoped he will return invigorated. During his absence "Honest" John Darlington is in charge and it goes without saying that the interests of Mr. Wilkins in the composing room will be looked after.

Machinist Jim Spruceback of the Post, has done away with the double bank of machines and strung them in line. He has added greatly to the appearance of the room besides making it more convenient for the operators, who formerly had their backs to the windows, and made room for the four new machines that have been ordered, although Tommy Fraser said it was done so that visitors to the composing room could only see George Charles' back as they leave when they see his face without inspecting the machinery.

"Sadie's" Advice to the Delegates. "Sadie Maguire," of The Western Laborer, in his last issue gives the following advice to the delegates in session at Birmingham: "To the Delegates Assembled at Birmingham: You just run the convention to suit vourselves but don't let the St. Louis brokers and speculators in baseball scores 'con' you into voting for a law that will restore the hog-incubating, demoralizing, barbarous, and damnable piece system on newspapers. Don't forget to kill Sam Donnelly's labor press censureship law just to show him and the world that the members of the grand old Typographical Union are for the absolute freedom of the press everywhere! Remember that were it not for the freedom of the press in America very few newsmen would be attending the convention in Birmingham next week. The writer appeals to the members of the conven tion to repeal that law for the good name and reputation of the union. Let the Locomotive Engineers or some such 'intelligent' organization undertake the task of suppressing the press. Remember that the natural life of a labor paper is averaged at three years and that their lot is hard enough without printers do ing any suppressing. When a vote is taken on this question let it be a manly, open roll call. Aside from the above I hope 'you all' have a good time."

TRADES UNIONIST:

U.S. DEPARTMENT OF AGRICULTURE,
WEATHER BUREAU,
OFFICE OF THE CHIEF,
WASHINGTON, D. C., August 2, 1901.
Wm. M. Garrett, Secretary Columbia Typographical Union, No. 101, Washington, D. C.
My DEAR STR: I am in receipt of your letter of the 30th ultimo, informing me that my name had been added to the Honorary roll of Columbia Typographical Union, No. 101, and inclosing a certified copy of the resolutions affecting the same.
In answer permit me to say that I appreciate the action of Columbia Union more than I can well express. I believe in the aims and objects of your organization. There is no power in this Republic more potent in contributing to the welfare of American citizenship and in elevating mankind to nobler and higher levels than unionism, whether it be applied to the world of commerce, of labor, of politics or of religion. The laborer is worthly of his hire. Anything that tends to shorten his hours of work and give him opportunities for recreation and mental development increases his value as a citizen. The union of labor has done this and more. It has inspired in the minds of the worker a self reliance and confidence that is of prime importance in the overcoming of difficulties. There is nothing that insures the continuance of our national power and prosperity more than the elevation of labor to its proper dignity. The majority of the most intellectual minds of this country sprang from the ranks of labor. In the Bureau over which I have the honor to preside many of the most important positions are held by men who began their careers at the printer's case and who, step by step, through study, self improvement and merit alone, rose to places of command. It is a matter of pride to me that for many years I belonged to the printing fraternity, and to-day I hold among my most prized souvenirs union working cards obtained many years ago in Elmira, Burlington, Chicago, Cleveland, and in Columbia Union itself.

Again expressing my appreciation of the honor that your organization has conferred upon me, I am

CARNEGIE complains that he has so many millions that he don't know what to do with them, and they are still banking up, despite his liberality. Liberality to whom? Surely it was not to the murdered at Homestead ten years ago, nor is it liberality to the struggling Amalgamated Association at this time, who are fighting for their rights under the Constitution.

CARNEGIE's policy is one that robs the Government and oppresses the employe, and then tries to exalt himself for all time as the world's philanthrothe Government and oppresses the emfor all time as the world's philanthropist by parceling out his ill-gotten millions to favored spots. Prof. George Harvel and Senor C. B. Yater have returned after a fifteen-day exploration of the Lower Potomac and Chesapeake Bay, going down as fa ras Old Point Comfort. The supply of "bait" becoming exhausted they desisted in further efforts and returned to the city where the yacht was put out of commission. commission.

Yater's ability as a cook was fully demonstrated while on his outing down the river last week. One day the steward of the yacht was indisposed and Yater subbed for him. The bill of fare for that day indicated chicken pie, and here is how this novel chef executed the job: He worked the box for a fat hen, hung the interior decorations on hook, and with a pair of snips cut her into small takes of original design; making a pick-up of the fragments, he chucked them into a hell box lined with a 6-point dough and covered it with a piece of tympan, which he secured with a page cord. After cooking a fraction of a turn-in, he lifted the matrix with dynamite and distributed the objectionable matter to the gang. Shooting-sticks were employed as toothpicks to remove the feathers which accumulated during mastication. Wouldn't that disturb your capillary fringe?

#### CONVENTION AT BIRMINGHAM

[CONTINUED FROM FIRST PAGE.]

An attempt was made to reconsider the vote by which section 128 was amended, referring to the six-day law. After some discussion the convention refused to reconsider the proposition.

Pugh, of Newport News, Va., submitted a proposition to provide for payunions unable to pay same. Lost.

Miller, of Fort Worth, Tex., desired to have any foreman disciplined for allowing a non union man to practice on any machine in a union office. Lost.

Walsh, of Milwaukee, presented a resolution advocating the formation of ladies auxiliary corps by unions, which was indorsed.

A proposition to return to biennial sessions was defeated; also one to allow the secretary-treasurer to fix time for calling the convention. A proposition fixing the amount of type to be considered an average for an hour was defeated.

The report from Union Printers' Home Committee was considered. The proposition to grant a pension of \$5 00 a week to all five-year inmates leaving the home was adopted.

Several propositions looking to giving financial aid to the striking steel workers were discussed, which finally resulted in an appeal being sent to all subordinate unions to send subscriptions to Secretary-Treasurer Bramwood for the use of the Amalgamated Association.

The Committee on Allied Trades reported a recommendation submitting the following proposition to the referendum: "Shall the Tripartite Agreement be abrogated?" Considerable discussion was had after which the recommendation of the committee was indorsed.

The date of the seal of the I. T. U. was ordered changed from 1869 to 1852, being the year of the formation of the National body, the change in 1869 being made on account of change of name to International on the admission of the Canadian unions.

The proposition of President Lynch to amend Article I, section 1, by inserting in parenthesis, after "printer" in line 8 (printers, proofreaders, machine tenders, and all other skilled employes not otherwise herein excepted), was adopted.

The proposition of President Lynch providing for the creation of an executive council consisting of the President, Secretary-Treasurer, and Third Vice President was adopted.

The effect of the above proposition, which, like the one preceding it, goes to the referendum, will create an executive council of officers of the English and German typographical branches, the allied trades representatives being members of their respective trade dis-

trict unions. The convention favorably considered the proposition to amend section 9, Article IV, of the Constitution, to permit of election of President and Secretary-Treasurer on a plurality vote instead of a majority as now consituted. This goes to the referendum.

Machine tenders assistants were also made eligible to membership, the Laws Committee reporting unfavorably, but the convention indorsed the proposi-

tion. After the usual vote of thanks to the local committee and presentation of paid. Apply at this office. souvenirs, the convention adjourned at 10:30 a. m., Saturday, August 17.

## LABOR DAY AT GLEN ECHO

Great Preparations Made to Gelebrate Labor's National Holiday.

SPLENDID PROGRAM PREPARED

Chorus of Fifty Young Ladies-Vaudeville Program-Athletic Games-Labor Day Ode - Addresses by Prominent Labor Workers-Prizes for Ticket Holders.

All preparations for a grand outing at Glen Echo on Labor Day have been made, and all arrangements are complete. There will be one continuous round of pleasure from 11:30 a.m. until the evening performance.

The first on the program will be the barbecue, which will be succeeded in regular order by a good bill of athletic games for men and boys, including running, jumping, pole climbing, pole vaulting, sack races, etc. For every event generous prizes are offered.

The exercises in the amphitheatre will be on an attractive scale. Preceding the opening exercises a chorus of 50 children will sing patriotic songs. OPENING EXERCISES.

He came to Washington in 1889, being appointed to a position in the Government Printing Office. He has been an active worker in Columbia Typographical Union, serving as a delegate from that body to the International Union in 1894 and again in 1899. He is the father of what is known as the Per Capita Tax Stamp Law, which adds hundreds of dollars yearly to the treasury of the I. T. U., introducing it at the Detroit session in 1899, and while defeated in the referendum vote that year, was adopted the year follow ing at the Milwaukee session as a general law. He has been a foreman in the Government Printing Office for the past four years, severing his connection with the office to accept his present position. He has made a host of friends while here and few enemies, his advocacy of men and principles in Union affairs being responsible for the latter. For the past four years he has been the Warwick of Columbia Union and he will be missed when the ides of March come again. In his new position he carries the experience of years in the Government Printing Office, and his friends bespeak for him success in his new field.

He brings to the position a thorough knowledge of the duties devolving upon him, having been an employe of the office for a number of years. To those who know him as a man and a fellowemploye, the elevation is a mark of recognition to one who is in every way qualified to fill the position.

Many labor leaders in some sections of the country have advised union men to refrain from joining the National Guard. The Trades and Labor Council, of East Liverpool, an industrial town of Ohio, on the Ohio River, adopted recently a resolution declaring

The present laws of the State of Ohio governing the National Guard makes it simply an armed, well-disciplined, and well-equipped police force for the protection of the property of the corpora tions and the trusts. The Trades and Labor Council recommends that al working men, and especially those be-longing to unions, to keep out of all companies of the National Guard at present existing or in process of forma-

These are weighty sentiments and every laboring man should ponder well before joining such an organization on he ground of only associating himself therewith for the social and "going-incamp" features. It is time enough to take up arms when one's country needs the aid and not for the sake of protecting monopolies' holdings and thus con tinuing them in a position to oppress labor organizations.

The strike of bricklayers on the new buildings at the navy-yard was of short sage of Abraham Lincoln to Congress office of his own-and here's to you, duration, the advance to \$4.50 per day in 1861. being granted last Saturday. It appears that a board of naval officers meets twice a year to fix the compensation of the employes in the navyyards of the country and at its last meeting fixed the scale at \$4 per day, the local union in the meantime fixing its scale at \$4.50 per day. It was stated that when the attention was called to the matter by officers of the union, the Acting Secretary notified them that it would be inconvenient to call the board together at this time, but the union remembering that in 1891, on the occasion haps). of the adoption of the eight-hour day to local building, that the board was called together to reduce the pay of its additional leave. employes in accordance with local contractors to \$4, being a 50 cents per hour rate, contended that conditions were reversed and the men at the navy-yard Rapids, Mich. should receive the same pay as those employed on local contract work. The force of this argument being admitted, the scale was granted, pending a meeting of the board.

Garner, Joseph Geier, Charles Loeffler, Charles P. Myrtle, Charles H. Kettler, and W. P. Stonell. These gentlemen catered to every want of the vast assemblage and only desisted when the crowd was ap peased and only bones and bread remained of what was a unique and at the same time a substantial lunch.

The exercises opened up with a chorus of seventy young ladies, their ages ranging from twelve to fifteen years. These young ladies were chosen as representatives of the various unions affiliating with the Central Labor Union, and rendered the Labor Day Ode in a manner that would do credit to an older and well-drilled chorus of like character. The costumes worn by the young ladies were Among the costumes worn was one representing the Fire Department Employes' Union, Miss Maggie Grinder, being the sponsor for that union. She was attired in a complete fireman's uniform, including cap. At the conclusion of the song she was presented cers of the Fire Department Employes' Union. #### Members of Bookbinders' Union No. 4 Give Him a Timely Reminder.

Edward Wagner, who is to take charge of the bindery in the Public Printing Office of the Philippines, was presented with a gold watch by members of Bookbinders' Union No. 4 at their last meeting. Mr. Wagner has been one of the active workers in the union, having served on the arbitration board and other important committees. During his connection with the bindery at the G. P. O., where he was employed in the "cow boy" division, he has made a host of friends, who deemed the occasion of his going abroad a good opportunity to present him with a token of the esteem and regard in which he was held by his fellow workmen. The watch is of solid gold, suitably inscribed. The presentation speech was happily delivered by Mr. Charles Nelson, expressing the sentiments of the donors, and closed by wishing him success and good luck in his new field. Mr. Wagner's response was in keeping with the occasion, the event being a great surprise to him. He expressed his appreciation at the outspoken regard for him from fellow workmen and assured them that he would treasure the watch as a reminder of some of the brightest and happiest days spent among them in this city. During the evening Mr. Wagner received the congratulations of his fellow unionists, who expressed the hope that success would crown his efforts in his new field of operation.

#### Worth Reading.

Referring to the recent labor troubles in San Francisco, the Star of that city, in a recent article, has the following:

In this age it is incomprehensible that men should be found guilty of the folly of believing that they can crush trade unions and the trade union spirit by "paralyzing industry" or by proclaiming "We have nothing to arbiown way to suit our own selves."

But there are such men-right here in San Francisco, as well as everywhere else, who, deaf to the voice of reason and justice, have undertaken the impossible task of compelling men to think as they do and to act as they

They denounce union men as tyrannous because they refuse to work with non-union men, while at the same time they give notice to restaurants and butchers with union cards that they will not be supplied with meats and other provisions.

They go further, and coerce small dealers by threatening them with ruin if they accede to union demands, and refusing credit to those who supply the strikers with the necessaries of life. If this is not tyranny, what is it?

Imperfect as trade unions may be, they have in the past been the only hope of labor, and, if the trust magnates of the land could but know it, have often stood between them and anarchy.

Without them labor would be at the complete mercy of the most unprincipled of the employers, who by their competition against fair employers bring all labor to the same level. Without trade unions, labor would be helpless, even as a large city, in the event of a great fire, would, without an organized fire department, be devoured in the flames.

While labor should jealously guard its unions as to the bulwark of its liberties-as its only weapon of defense under present unjust conditions-the mer cantile community should foster them, for the better paid the laborer is the more he will buy, and, necessarily, the more the merchant will sell. Without trade unions wages would go down below the cost of civilized living and all classes would suffer.

#### The Conkey Strike.

Hammond, Ind., where the plant of the W. B. Conkey Printing Company is located, is now the scene of a merry war. Conkey's office has been nonunion for the past three years, and the allied printing trades of Chicago, holding jurisdiction over Hammond, have been fighting the office during that time. Matters were brought to a crisis the other day by the formation of unions by the pressmen, feeders, binders and electrotypers employed in the shop. When the action of the men became known to Mr. Conkey he discharged the J. WILLIAM LEE, leaders in the work of organization, and a strike of the rest of the men followed, thus completely tying up the plant. This was an unexpected turn in affairs. Undaunted, however, Mr. Conkey sought refuge and assistance at the hands of an injunction mill, otherwise called a court. Judge Baker, of the United States court, issued a temporary injunction for Mr. Conkey, placing a ban upon almost everything the strikers are likely to dream of doing, even to visiting the homes of the employes of the Conkey Company. The injunction in the conkey Company in the conkey Company. The injunction in the conkey Company in the the Conkey Company. The injunction is said to be the most sweeping ever JOHN CONNOR,

That relation is one of Brotherhood. Anyone, whether employer or employe, who violates or ignores the fact that all men are brothers, will as surely suffer the penalty as though he were to put his hand in the

This is not an opinion, a fad; it is the foundation fact upon which the world turns, the fact of oneness and of humanity. "One God" means that all humanity is a band of brothers, and the struggle of the ages has been to realize and practically apply this truth to the affairs of life.

Man-made laws have never lightened the burden of human woe and never will. Man-made laws will never secure the shorter work-day. We will get the shorter work-day just as we make any other gain towards liberty; just as men and women grow up to believe in one another, learn to believe in better social conditions, and having learned to believe they will practice them; that is, men will adopt the shorter work-day and when they have adopted it and it 12. Credentials were received from the local paper hangers' organization, but were not acted upon at this time.

Two new organizations, the Pipe Coverers' Union and the Douglas Colored Engineers' Union, chartered by the International Union of Steam Engineers, were received.

Credentials were also received from Driscoll's, N. Cap. and G. High Ball. the Team Drivers' Union, Local No. 33, and the Barbers' Union.

A communication from President Gompers, of the American Federation of Labor, was read requesting this body to appoint a committee to meet the Executive Committee of the former body relative to the protest of the United Association of Journeymen Plumbers and Gas Fitters against the use of the new title of Steam and Hot Water Fitters and Helpers of America. Chair appointed Messrs. J. H. Brinkman, C. W. Winslow, and C. E. Dietrich as such committee.

A protest from Local Union No. 5, of Plumbers' against the seating of delegates from Local No. 28, under their new title, was read.

A report from the Building Trades card would be issued by that body to go into effect October 1, was read.

The following resolutions by Delegate J. B. Dickman were offered and unanimously adopted:

#### About Jury Trials.

Justice Brewer has aroused some controversy by declaring that "the jury system, as at present administered, is a little more than a relic of semi-barbarous

There is much truth in his strictures, particularly because everything is done to prevent intelligent men from serving, and to make the jury subservient to the court, or suceptible to the blandishments or bullying of counsel.

On the other hand, the average juror is not capable of sifting out evidence or seeing the logical application of legal principles, as a judge who is trained to obtain judges who were neither prejudiced nor susceptible to influence, there would be less danger of injustice from Section stating that a general working their decisions than from the verdicts of the average jury, too often composed of ignorant bigots.

But judges are human and experience teaches that they can be unduly influenced. What is to be done? #### McKinley, Martyr.

For the third time in thirty-six years by the hand of the assassin, the American people have been called upon to mourn at the bier of the Chief Executive.

The first to meet death was ABRAHAM LINCOLN in 1865; the second, JAMES A. GARFIELD in 1881, and the last, WILL-IAM McKinley, who was shot at the Pan-American Exposition at Buffalo, on Friday, September 6, dying at 2:15 a. m., on Saturday, September 14, 1901.

In a country like the United States, where oppression like that found and practiced in monarchies is unknown, this is an appalling tragedy, and it seems that Congress should take cognizance of this state of affairs and enact some statute whereby this country would be more strict in its immigration laws and perfect some plan whereby Anarchy, which has become altogether too frequent in this country, should be stamped out. The public demand a statute of this nature for the protection of its representatives and public servants, for, as an able states- ized in this country as they should be, man puts it, "it is not a blow at an individual, but at the whole nation."

The closing hours of President Mc KINLEY's career and his last words are worthy of the study and emulation is to belong to a trades union will apof Christian people, and should be ply for charters. We again repeat that taught the younger ones growing up, as no mistake will be made if he is chosen, they clearly depict the resignation to the final end which comes only to those imbued with Christian fortitude.

His last words were spoken to his wife, while her hand clasped his:

"Good-bye, good-bye. It is God's will. Let His will, not ours, be done."

His last speech was for peace, and the last words that he addressed to the whole people were:

"Our earnest prayer is that God will graciously vouchsafe prosperity, happiness, and peace to all our neighbors, and like blessing to all the peoples and powers of

And when the assassin was seized and thrown to the floor, he said: "Don't let them hurt him."

She has the sympathy of a people that comprise a a great nation, and she can console herself with the assurance that the late President was honored as a man of unimpeachable integrity, a ruler that will always live in the hearts of the people. the remains of the late lamented President, was the worst ever witnessed on a like occasion in a large concourse of considered—to pay homage to the mortal remains of the late President. The affair had the appearance of a wild, diswith brute strength seemed to be able to withstand the terrible crush. About one hundred cases were cared for by the hospitals and over three hundred were more or less injured. Had the same procedure as was inaugurated after the crush been put in operation at the beginning no such scene would have occurred. The police force was inadequate for the time, and there seemed to be no order or rule for formation of the line. Had the arrangements been perfected at the start, instead of about 40,000 viewing the remains and 10,000 or 15,000 being deprived of doing the same, all would have had an opportunity to have seen all that was mortal of the martyred President. Better order was possible. Buffalo handled a larger concourse of people, and her advantages for so doing were not equal to those of our city. Some one was to blame.

Thomas Solan, the tragedian, who was with the Chas. B. Hanford Co. last season, was reinstated to his former position in this office several days ago, and received a warm welcome.

Nat. G. Watts has "resumed" after a pleasant vacation spent in Buffalo and other points of interest. Nat being a member of the Washington Camera Club, we may look for some fine pictures of scenes on his trip.

This chapel, with the others of this office, participated in the funeral pageant of our late beloved President William McKinley, and as a further mark of respect draped the large pic tures in mourning for 30 days.

The members of this chapel extend their sympathy to brother William McEnaney and wife in their sorrow in the loss of their bright little son, Wil liam, by drowning last Saturday. The chapel sent a beautiful floral piece.

Rossall has returned from bright little six-year-old son at Chevy Chase, on Saturday. Mrs. McEnaney is prostrated from the awful shock that came so unexpectedly on a day on pleasure bent.

Paymaster Clifford has not only again earned the encomiums of the employes of the office by giving them the salaries due in time to be of use in the Saturday half holiday, but has made a record that even he will not willingly try to break. At 11:20 on Saturday it was decided to close the office after 12 o'clock. Mr Clifford conceived that William F. Schooler has returned many would enjoy the money that was due them on Monday, and began to fill pay envelopes By 1:40 he had put up the envelopes and paid out from his vacation spent at Buffalo, N.Y., \$61,000 That's spending money pretty rapidly. Thanks, Major.

The solemn stillness and hush that pervaded the Government Printing Office on Saturday spoke volumes of the dreadful calamity that had visited our nation. It needed not the mourn ful headlines of the daily press to tel us we had lost by the assassin's hand our beloved Chief Executive. The usual happy and conte ted greetings of the employes gave way to subdued tones and evidences of deep sorrow and heartaches. Our President was dead! He was beloved by high and low alike, and as trade unionists we will cherish his memory as one of us, as he died as he had lived-an honest, upright, Christian citizen and a member of a trades union. As a token of respect the various divi sions of the Government Printing Office have been appropriately draped.

DEATH OF W. H. NORTON.

#### Struck by B. & O Express Train at Forest Glen, Md.

William H. Norton, for thirty-five years an employe of the Government Printing Office, and at the time of his death a member of the Second Division chapel in that institution, was struck and instantly killed by a fast express train on the B. & O. railroad at Forest Glen, Md., where he was temporarily residing, on Sunday morning, September 15, 1901, at 9 o'clock.

He was attempting to cross the track and did not see the approaching train. The engineer blew a whistle of warning but Mr. Norton being quite deaf evidently did not hear the whistle. His body was thrown a distance of fifty feet breaking his arms and legs, body was badly mangled, and head crushed.

He was a member of Columbia Union and represented that body as delegate at the Detroit convention in 1878. He was an active member in G. A. R. circles and the Union Veteran Legion.

His age was about sixty-four years, and he leaves an invalid wife who has the sympathy of many friends and acquaintances.

His interment took place Thursday at Ithaca, N. Y.

A recent number of The Outlook contained the following articles, especially prepared for it, on "The Incorporation of Trades Unions:'

ADVANTAGES AND DISADVANTAGES. [By Carroll D. Wright, United States Commissioner of Labor.]

The constantly recurring conflicts between employers and employes are more and more based on the question recognition of the unions, in a popular unions themselves. In the former case it is understood to mean simply a sary, suits could be instituted, but the of the existence of the unions and dealing with their officers. On the part of the unions themselves the recognition could be attached pending the decision is understood to mean something more than this, even in many cases to taking tract by a local union, even when such part in the establishment of rules and the regulation of wages.

Such conflicts lead to the proposition that labor unions should be incorporated in like manner as capitalistic associations are incorporated—that is, that under the law the unions should become responsible for their contracts. States relating to corporations of all unions would be at the mercy of every kinds, whether for business, educaposes, trades unions can easily secure degree the other way. As it is now, a charter. The advantages of incorporation are that the union under a charter becomes a person in the eyes of the law; that it can sue and be sued, as individuals, corporations and firms can sue and be sued. It would have standing in the courts; it would be better able to own and control property and would have many rights and privileges that trades unions as voluntary associations do not have. By incorporation unions would stand better in public estimation. As a legal person they could enforce their contracts against employers. They have been debarred heretofore from appearing in court by representatives. They have thus lost advantages which would have been of the greatest importance to them.

On the other hand, labor leaders claim that there are disadvantages which would come from incorporation, but they apprehend the dangers which would come through the assumption of duties and liabilities which do not now specifically belong to the unions. They would be obliged to have funds for strike and benefit purposes-in fact, some capital, although no stock. This capital or the funds could be attached under an action of contract or tort, and it is feared by members of unions that such action would result in their disruption. There is great apprehension also that whenever a union might be brought into court and judgment for any cause secured against it the union would collapse; hence the fear that ul- labor union is opposed to exchanging timately incorporation would mean the

SHALL UNIONS INCORPORATE destruction of trade unionism. Members also fear that the writ of injunction would be much more severe in its operation under incorporation than at present and that they would not receive fair treatment from the courts.

THE UNIONIST POSITION.

By Joseph R. Buchanan, labor editor of the American Press Association.]

The incorporation of labor unions is a question almost as old as the unions themselves. A majority of the leading unionists of this country are emphatically opposed to the idea. The disadvantages growing out of incorporation would, they say, far outweigh the adas to whether trades unions shall be vantages and the so-called advantages recognized by the management. The would be two sided. Take, for instance, the holding of property. An insense, comprehends something entirely corporated union would be enabled to different from what is meant by the protect its property by exacting of its officers bonds, against which, if necesorders of the court in a case against the union. The funds of a national union of a court in a suit for breach of conbreach was in absolute violation of the national union's expressed will. Therefore it is a quertion whether the right to sue, with its corollary, would be a benefit to trades unions in their present stage of development.

In recent years labor unions have had just cause to dread "government Under the general laws of the different by injunction." Incorporated the court where sympathy or personal intional, religious, or benevolent pur- terest tilted the judge in the slightest

Some of the unions of of a member suspended or expelled for the State of New York are incorporated, "scabbing" or other violation of rules but there are very few incorporated and the union could be made the prey of every unprincipled and weak-kneed workman in the trade. The right to absolutely govern the terms of membership and the conditions of reinstatement is one that labor unions cannot afford to surrender.

> The tendency of labor unions in this country is toward a fuller democracy in the management of their affairs. The adoption of the referendum is one of the evidences of this tendency. Incorporation would certainly result in the centralization of control. This effect alone of incorporation would destroy the unions. Your rank and file labor unionist feels that he is an important part of the organization, and so he is. Attempt to restrict his powin this particular, and he quits.

Labor's belief that law and the courts are for the benefit of the owners of wealth may be deemed by many unwarranted, but has it not grounds for the belief? More than one-half of the laws enacted are for the protection of property. Labor is not a heavy property owner. Organized labor has secured the passage of laws in its interest. Many of them have been declared unconstitutional by the courts. The laborer has seen the poor man sent to jail for a petty offense and the rich thief go free through technicalities of the law as interpreted by some judge. At best law is costly, and the laborer, individually and collectively, is too poor to indulge in the luxury. Lawyers who have the winning way in corporation cases come high and stay late.

For these and other like reasons the

CONSIDERING the facts relative to the great steel strike settlement, it might be stated that the Amalgamated Association lost the fight. Yet from it may be deducted many good points if the the strikers heed the lessons taught therein. It was the first strike against the billion dollar combine, and, being better organized than the workers, they naturally won. 'Organization is the main thing. Now, if the workers in the iron industries will study the causes of their defeat and make an effort to remove same they will have gained more than if they had won the strike.

While there are many charges against President Shaffer, we think he did everything in his power to win, and labor people should not be too hasty in condemning the actions of their leaders remembering these strikes are of vast proportions, and this one in particular the odds were against winning at the the outset. Now let the iron workers begin and organize every mill in the country, and don't forget the unskilled laborer, and then they will be prepared later in case of another difficulty arising.

Really, this is a queer old world we ing tragedy by assassination of President McKinley had settled like a pall, Louis. and during the days that his life was prolonged loyal hearts expressed in words unmistakable the love they bore and hoped for the best while yet fearing the worst. The bulletins, which from the first were conservative and all the time assuring, had inclined the public to suppose that the full designs of the assassin had failed and in place of widespread gloom came an interval of rejoicing, and simultaneous with these glad tidings suggestions were offered looking to a suitable demonstration in honor of the President's recovery and home coming. From grief gave way to gratitude, yet mingled with fear. From thrones far distant and from the plain people as well messages of love and the hope of speedy recovery found their way on swift wings to cheer those nearest the good man and the wife who was ever the object of a husband's deepest solicitude. The child of to-day, who has reached the years of understanding, though he live the allotted time of three score and ten, will carry with him the recollections of this terrible tragedy. The generations that follow and those of kin he will tell the story, and no part of the thrilling incidents will be listened to or will carry a more sublime lesson business, you are pursuing a false policy. than that which has reference to the intense interest manifested during the closing hours of the dying President, when, surrounded by wife and friends, with that simple fortitude which had endeared him to people everywhere, he gave as his last message to the world and those about him these words: "It is God's will. Let His will, not ours, be done," which oft repeated for the time made all men kin.

The death of William McKinley is a national calamity. It has removed from our midst a man who was probably nearer to the plain people and whose real sympathies were more in common with them than any man who has occupied the Presidential chair since Lincoln, the emancipator. And end it up with A." Every time Mr. Thomas C. Noyes is

appointed on a committee of any kind, it's dollars to doughnuts that Mrs. T. C. gets on the program to warble a few. Mrs. N's capabilities, however, make her name and her efforts paradoxical. Perhaps "some time we'll understand."

Invitations are quite plentiful in the press room for a pink-tea to be given at the home of one of the pressmen. The card and envelope are pink and a tiny pink bow of ribbon adorns one corner. I don't know what the custom is among those who give pink-teas in "Swamppoodle," but I do know that the majority of those who have received invitations would be more at J. The Board of Trustees of the Union trustees are as follows: James M. Springs, Colo.; J. W. Bramwood, Secretary and Treasurer, Indianapolis, Tenn.; L. C. Shepard, Chicago; Rob- dent Lynch. ert L. Tatem, Philadelphia, and E. W. Patton, Washington, D. C.

The first matter of importance considered by the Board was the action of the Birmingham convention of the International Typographical Union in adopting resolutions denouncing an article published in an Omaha labor paper, doubtless written by Dr. W. A. Campbell, of Colorado Springs, the former physician of the Home, and which contained an unwarranted attack upon the Superintendent and Board of Trustees of the Union Printers' Home, in which an attempt was made to defame the institution. The Board of Trustees, feeling that the good name of the institution and its officers had been unjustly attacked by a resident of Colorado Springs, believe it but fair and just that the truth be given to the papers of the city, in order that the false impression that might result from the communication published in the Omaha labor paper may be removed. With this end in view, Secretary Bramwood has been instructed to prepare a statement and ask the various papers of Colorado Springs to publish it.

#### ORIGIN OF THE TROUBLE.

In order to deal with the subject fully it is necessary to revert to the proceedngs of the Board of Trustees one year patients at the Home preferred charges against the management. At the last | Colorado Springs Typographical Union annual meeting of the Board these We quote as follows from the report of charges were thoroughly investigated, the committee: and the Trustees, by a unanimous vote, declared them not sustained. A full report of their findings was published in the Typographical Journal, the official organ of the International Typographical Union. When the investigation was made, Dr. Campbell, who was at that time the Home physician, appeared before the Board and submitted testimony. Dr. Campbell especially requested that the stenographer be not allowed to take notes of portions of pending the action of said Executive his remarks, setting forth that he desired to appear in the capacity of a family physician rather than in any teen of the allied building trades have other garb. The article was anony mous but a portion of it surely emanated from Dr. Campbell, for it contained communications that had passed between the officers of the Board and himself regarding official matters. It is understood that copies of the paper containing the article were sent to delegates to the convention. It was evidently the intent of the author to bring into disrepute the Home and those in charge of its conduct, and he doubtless hoped that the delegates would accept his statements as facts and order an investigation of Home

officers of the institution, or the Home, lines: shall be subjected to abuse by any of those who are, or may have been, connected with the Home. We feel that the unanimous support and indorsement of our International convention is a sufficient commendation of our efforts to conduct the affairs of the Home in a conscientious and businesslike manner. To indulge in or instigate an anonymous attack on the Institution or its officers is not proper. Dr. Campbell is personally acquainted with the different members of the Board of Trustees. They were guided largely by his views while he was medical adviser, and it was certainly due them that he lodge his complaint over his signature, rather than resort to an anonymous communication.

We desire to say, in conclusion, that the officers of the Union Printers' Home, which is incorporated under the laws of the State of Colorado, are prepared to assume responsibility for the statements herein made, and we request the newspapers of Colorado Springs to publish this document in its entirety.

#### Trades Unionism To-day.

In spite of the defeats and setbacks the trades unions of the world seem to have had during late years, they have made great progress. The success or victories of a union should always be measured by the amount and kind of resistence the opposing forces hurl against the organization. A victory won a few years ago by union labor, before the modern capitalist courts hurled their injunctions at the strikers or the advent of the trust and syndicate, might in itself be a clear victory, a win out on all points, where to-day in closing up, declaring off, or arbitrating a dispute, only one or two points may be gained. Considering the odds Louisville. He looked well and had ridiculous. 'You all' is a plural, and against a union, as compared with a few years ago, the victory is greater to-day. We must not lose sight of the vast changes in our industrial system, which is largely in favor of the employ ing class. This fact should influence the workers to organize, as there is no possible chance now of gaining the slightest concessions without a powerful well disciplined and financed union. It is not enough that it should be national, but must be international, of the broadest kind, to be effective and keep pace with the changes that are really there. taking place in our workshops and factories .- I. Cowen, in International Socialist Review.

"Excessive wealth is as demoralizing as extreme poverty.

LABOR organization is a revolution. Revolutions never go backward.

THOSE who favor proper protection to American industries belong to and are in favor of organized labor.

SELF CONFIDENCE, energy and persistence are necessary to success. I the members of a union have these three essentials, the highest aims of the organization can be attained.

At Louisville I saw "Joe Bush"-B. Rowlett is his correct name, whatever the "B" may mean. By the way, the name should be written "Busch," for I am told that he is so called because his general appearance indicates that never heard a Southern man say 'down he ought to be used as an Anheuser-Busch beer sign, and "Anheuser" being too long, it was shortened to Sothe meets another he asks, 'Where 'Busch." Joe lives somewhere near the appearance of being prosperous.

I also saw Dexter Hussey, formerly of the Post, in Louisville. He had ployed on Hearst's Chicago American. Hussey represented this Union at the just as across the river here they say I. T. U. convention at Philadelphia in 1892, having President Lawson, Charlie Thompson, and Joe Cross as running mates. He said he liked Chicago and Buffalo, spent a couple of hours very the American very much. Harrison is right, both as to the procome from Chicago, where he is em- nunciation and the plural. In some sections they pronounce it "Sothe," 'Fahfax Cote-hoce," but never the sound of oo.

> John Henry Boner is still in North Carolina in wretched health. His many friends in the two proof rooms recently assisted him quite materially so he would be able to remain in that healthful climate some time longer, in the hope that he may fully regain his wasted strength.

Capt. "Jack" Lewis, who was a volunteer in the Philippines during the Ruling and Binding of every description Spanish-American war, having passed a creditable examination, returns to the former scenes of his glory, as a Second Lieutenant in the regular establishment. He was in this room on Tuesday bidding farewell to his friends -and that means everybody.

An incident occurred last Saturday 209 Seventh St. N. W. vening, soon after the whistle ble for 4:30, that is worth noting here. An old fellow was selling celery that he had undoubtedly raised on his little place near town. The price was two bunches for five cents, but one of the 'strong trade unionists" from the building came along and started to harangue the poor fellow for not selling three bunches for five cents. The rain was coming down in torrents, and still he wanted this "man with the hoe" to unload his little stock at halfprice to him who had just been paid full price by a munificent government. Alas and alack! (I am happy to say he was not a printer.)

#### Pressfeeders' Notes.

At the last regular monthly meeting of the Pressfeeders and Assistants Union, No. 42, a large number of feeders were admitted to membership. Resolutions were adopted on the death of the President and a copy of the same ordered sent to Mrs. William McKinley and to be spread on the minutes.

A committee of five were appointed to revise the Constitution and By-Laws; also a like committee to formulate plans to celebrate the " fourth anniversary" of the union November 24.

A committee from the Retail Clerks Union were granted the privilege of the floor to illustrate the necessity of calling for a card when purchasing goods Alvery E. Smoot, and James H. Adams. from a clerk.

Miss Eleanor C. Burgess and Mrs. Ella Dant were appointed delegates to

the Central Labor Union. The next regular meeting of the union will be held Friday evening, October 11, when all the feeders employed under the government are expected to be enrolled in the Pressfeed ers and Assistants' Union, No. 42.

#### Bindery Notes.

Bill Singleton is in town and looking very prosperous.

All vocal and instrumental musicians please report to Ben Spellbung's Glee

The bookbinders at their last meeting decided to hold their annual entertainment and dance.

Bob Stack is singing a new song with great success, "Bring back my gas stove, Shad, to me."

Jack Helan has been transferred to the Library Branch bindery to cut leather. Jack's health was very poor this summer.

The committee and the foremen have been working on the new scale and we expect the matter will be adjusted to the satisfaction of all.

Harry McAleer is now an active member of the "Sidewalk Committee" of the Brightwood Citizens Association which accounts for his absence lately Jack Quinlan is very much interested in Mac, and hopes he is successful.

Shad Burns moved lately, and the colored gentlemen dropped the tub with all of Shad's dishes in, there was wild Irishman and a frightened coon and a large amount of broken crockery. Shad now eats off of wooden pie plates.

## Silver Medal

## Chr. Heurich Brewing Co.

Heurich's Beers have competed with the world, and Maerzen and Senate were recognized by competent judges of the Paris Exposition as the purest of all malt and hop beverages. As a result of this rigid investigation, a silver medal was awarded to

#### HEURICH'S BEERS

for purity and excellence. Medal beer is on draught everywhere. Ask for it.

14th and D S. E.

Capacity 100,000 Barrels,

Public opinion goes a long ways towards the right way. That's why the National Capital Brewing Company's "DIAMOND" and "MUENCHENER" Beers have such enormous sale—because the public asks for them and will have them.

## The Laboring Man-

—is quick to appreciate "a good thing" and to avail himself of it. That's the reason that "CHAMPAGNE" and "CULMBACHER LAGER" is so popular with all the labor organizations.

Champagne Lager \$1, Culmbacher \$1.25 per Case of twentyfour bottles delivered. Write, or telephone 1293.

## TRIP TO THE EXPOSITION

[CONTINUED FROM FIRST PAGE.]

let loose, for with the surging mass of people, the shuttle-like movements of incoming and outgoing trains, the screeching of locomotives, the choir of megaphones, the banging of baggage, and the confusing voices of cabmen there was nothing delightful nor aught of pleasing romance. It required the fragment of a night and a good part of the following day to recover from the shock of a half hour's experience of rib squeezing and fore and aft punching, and longer to forget the sore spots from the digs of umbrellas, walking-sticks, and traveling-bags.

So much has been written of the Exposition, and by pens minutely descriptive and pleasing, that anything more than a passing reference here would, by contrast, be but a weak apology. The magazines and current publications have afforded the reading public ample opportunity for knowledge so complete that the only advantage of the visitor is the difference revealed by the senses, for "seeing is believing." Those who attended the World's Fair at Chicago and this one at Buffalo have contrasted the two with a decided preference for the latter, more, perhaps, by reason of the electrical display, which is an essential feature and far surpasses anything that has preceded it. The Court of Fountains at night is the most beautiful of the perfect scheme of electrical illumination. To quote an authority: "Here, added to the electric lights, which are everywhere, are seen chinery. the scintillating colors of the rainbow and dazzling crystal rays gleaming through the fountains, while the soft cadence of the falling waters is heard. all producing a scene so indescribable that it may only be called 'Fairyland.'' The panoramic view of the Esplanade at night is a scene never to be forgotten, and so with every feature of the great exhibition, not excepting the Midway, with its collection of natural wonders, including those of our new Allied Printing Trades Label. possessions. In each of the separate division of exhibits the aim seems to have been to make the display one of novelty as well as of educational value. legally authorized to use the Allied The government building contains many exhibits which visitors from Washington recognize, and which were of especial interest to those who had not yet visited the nation's capitalthose from the Smithsonian and the National Museum claiming the greater attention. The Temple of Music, where President McKinley was assassinated, was much visited. The exact location where he stood was inclosed, and where formerly enlivening strains of music had attracted, now all was still and heads were bowed in serious meditation, while the eyes of old and young

tones. Perhaps the best patronized of the instructive as well as curious features of 14. PRICE'S BINDERY, 628 Louisiana avenue northwest. the great Midway was the cycloramic presentation of Jerusalem, (in which was vividly portrayed the crucifixion during the season of the passover,) the reproduction of the Johnstown flood, and the realistic battle scene of Missionary Ridge. The infant incubator caught the crowd, especially those of middle all printing done for them. Patronize age. One man who marveled much while viewing the "little folks" declared it as his belief that no well regulated family could afford to be without one, meaning the incubator, of course.

The visit to Niagara was reserved as a fitting finale to a week's sojourn. This was made by trolley through a pretty stretch of country dotted with Tonawandas, and the historic village of La Salle. At the city of Niagara a continuation of the trolley system leads over the great gorge route, which closely skirts the Niagara River along the American side, all the while within full view of the eccentrically disturbed stream with its numerous cascades, whirlpools, and eddies, while on either side are frowning peaks, with scarce a stunted growth of shrub or living thing until Lewistown is reached, where the river is crossed to the Canadian side and back to the falls, thus completing the famous gorge loop of such wonderful interest. The artist has failed to portray the real and the best is but poor imitation of the majesty and splendor of either the American or Canadian falls, and words fail to describe. It is a nature piece so awe inspiring that only God's voice is heard above the roar and where His supremacy is felt in the matchless splendor of the waves and the mists.

"Mighty waters, headlong tumbling, Down the vast abyss below. Ceaseless pouring, endless roaring, Does this torrent ever flow.

Returning to Buffalo, as the first step toward Washington, we enjoyed the hospitality of new-found friends by a carriage ride which covered the resident portion, past elegant homes, beautifully shaded and approached by wellkept lawns. The Milburn residence, where the late President McKinley died, and the Millard Filmore mansion were objects of special interest. Buffalo is a city of commanding presence, and the stranger who enters her gates is at ease from the first. This fact alone has contributed much to the enjoyment of tourists and visitors to the Pan-American.

The exposition, with its pleasing attractions and as an object-lesson, cannot fail of the purposes intended by its projectors-namely, that of bringing into closer relationship those countries of the South American group by establishing a better understanding of the needs of each and the adjustment of plans for mutual advantage by reciprocal trade relations along the lines suggested by the martyr President in his last public utterances. ## Silver Medal

#### Heurich Brewing Co. Chr.

Heurich's Beers have competed with the world, and Maerzen and Senate were recognized by competent judges of the Paris Exposition as the purest of all malt and hop beverages. As a result of this rigid investigation, a silver medal was awarded to

## HEURICH'S BEERS

for purity and excellence. Medal beer is on draught everywhere. Ask for it.

# National Capital Brewin

14th and D S. E.

Capacity 100,000 Barrels.

Public opinion goes a long ways towards the right way. That's why the National Capital Brewing Company's "DIAMOND" and "MUENCHENER" Beers have such enormous sale—because the public asks for them and will have them.

# The Laboring Man-

—is quick to appreciate "a good thing" and to avail himself of it. That's the reason that "CHAMPAGNE" and "CULMBACHER LAGER" is so popular with all the labor organizations.

THE A. F. OF L. COMMUNICATION

Bartenders' League Communicates-Musicians Request Assistance-The Grogan Matter-Credentials Received-Committee Appointed to Revise Laws of this Body - Delegate Dietrich Reports Columbia Union's Action.

The regular weekly session of the Central Labor Union was called to order on Monday night by President Feeney at Typographical Temple.

The Marinella case being the special order of the evening, the Grievance Committee made their report thereon, and Delegate Babcock moved that the body non-concur in same and refer back to the Cigar Makers' Union. This motion prevailed.

Credentials were received from Columbia Lodge No. 174, International Association of Machinists, certifying M. A. Bowen; from Iron Molders Union No. 215, certifying Michael Riley.

Delegate Dietrich reported that Columbia Union had sustained by a referendum vote the proposition that a fine of \$5 be levied upon any member purchasing cigars not bearing the label

upon the box. Pressfeeders and Assistants' Union reported an imposition of a fine upon any of its members patronizing Peter Grogan, as did also the International Union of Steam Engineers, Local No. 14, Bartenders' League No. 75, Uphol sterers' International Union of North sterers' International Union of North temporary sacrifices may have to be business. TO ALL AFFILIATED UNIONS, Greeting: by given that the Twenty-first Annual Convention of the American Fede, ation of Labor will be held at St. Thomas College Hall, in the city of Scranton, Pa., beginning at ten o'clock Thursday morning, December 5, 1901, and will continue in session until the business of the convention has been concluded.

Inasmuch as matters and measures of extreme importance to the wageworkers of our country await the calm, deliberate consideration and action of the organized workers of America in quested to be fully represented, and this, too, by the most faithful and the best qualified members. Under no circumstances should mere favor pre-vail in the selection of delegates. The cause of Labor is too sacred, important, and far-reaching to warrant our unions in selecting as their delegates to the the conventions of the American Federation of Labor any but those who not only have the interests of the toilers at heart, but who comprehend the conditions by which we are surrounded and can be helpful in devising the most practical means to secure relief from burdensome conditions, and to protect and promote the best interests of the toiling masses of our country.

We have not only to organize the yet unorganized toilers, to unite in one compact body the unions of the several nowadays in the press room; bound trades and callings; to more completely establish the federation of all; to make the unions and our Federation constantly more effective in opposing the wrong and establishing the right; to extend our resources, to maintain the vantage ground already secured, and to provide for the constant advance of the workers on the road to emancipation tive Board of the I. P. P. and A. U. from the thraldom of ignorance and greed; to carefully and intelligently defend our firm convictions and resolves. These and many other matters dealer. too numerous to mention here require the attention of the delegates to the forthcoming convention, and the unions "away back and sat down." Remem-

It was gratifying to learn that the referendum upheld the Union in placing a fine on those of its members who buy non-union cigars and thus directly encourage the sweat shop evil. It is now up to all good union men to appoint himself a committee of one, and report all violations coming under his observation. After a few have been "soaked a five spot" it will be seen matter. THE vote of Columbia Union upon the proposition of whether a member should smoke union or non-union cigars, of course, resulted the right way-the way of the majority; but then it was not a result, numerically, to be proud of. What was the cause of all this lukewarmness? Will some of the wise ones inform us?

IT seems to us that this city so long as it can not take the initiative it should follow other cities in the formation of Women's Auxiliary Label League. Just as soon as the different trades organizations get the ladies interested in the label question just so soon will good results show from their persuasive agitation. Let them demand that a clerk have in his or her possession a union card and then refuse to purchase any goods of whatever nature unless the same bears the union label. Remember every union article purchased gives more opportunity of union labor. Organization of all trades should use their influence to establish a Women's Auxiliary Label League and produce a condition of affairs that will make it plain to the merchant that he must handle union goods and solicit union patronage. Now is the acceptable

A letter was received from John H. Boner this week which would indicate that he is slightly on the mend. He always keeps in good spirits and is very much of an optimist. In relating a trip into the country that he made with a friend he speaks of stopping at a farm-house where they were regaled with some velvety old brandy made from pears. Some of the old judges of such things here smacked their lips in imagination.

Rumor is that Frank Stretton, an erstwhile Thespian (what the sage of the "Morgue" terms as "crushed tragedian"), is to enter the race for deleg-atorical honors, Frank claims to be familiar with the "whole works," when it comes to "Cincy," and will know when to turn on the "hot" (?) air and how to navigate the Rhine with safety. "Mayor" Tom Herbert, of the Post, has been disfranchised in old Charles county, Md., and is gathering his cohorts for an onslaught on the supervisors of election.

In answer to many queries of "How can P. B. Anderson and Co. printers of this city, claim to employ all expert union labor," we would simply state that up to the present time said office is not fair to organized labor nor does it employ union printers. For further verification we would call attention to the "Notice to Trades Unionists" in another column. This notice, it will be observed, is issued by authority of Columbia Union, No. 101.

S. J. Gompers, R. H. Pegues, C. P. Murphy, J. A. Gibbs, D. W. Beach, and 209 Seventh St. N. W. E. A. Tondee.

Sam Gompers paid his respects to the President on Monday and came away much pleased with what he saw and heard. Evidently the orders and mottoes about the White House do not include the one which directs the visitor to go away back and sit down.

Charley Duffy imperiled his life by jumping from a swift-moving car during a downpour of rain to pick up an umbrella, which later was claimed by a colored lady. Duffy gives this as an example of his usual run of luck.

When Captain Smoot first intimated that he was about to get a little buggy the presentment came that in due time everybody, and those nearest to him in particular, would feel the force of the remark, not by words alone, but by deeds as well. Last Sunday the Captain made an appointment hedged about with "ifs" and provisos dependent upon providential possibilities and weather probabilities. The drive led through the Soldiers' Home grounds and under conditions so favorable that the two or three hours were like those of the fore part of the annual leave. The "Judge"—that is the name the Captain has given his horse-was in trying to learn what kind of people are fine mettle, and the little red wagon floated like a feather borne on gentle zephyrs. The air was bracing and exhilarating and the autumn scenery was gorgeous beyond description. There was naught to mar the occasion save a possibility that in an unguarded moment the Captain might give one of those down-brake sneezes and excite the "Judge" into uncontrollable frenzy, for he's afraid of the cars; but it so happens that I have yet the best of reasons for rejoicing that the Captain got a little buggy when he did.

#### JUST EVERY-DAY LIFE.

That stock caption of mine becomes particularly appropriate in this instance. John Burns says. Early last spring I was put in possession of the fact that a Sunday paper public, and I forthwith cast about for a publisher thereof. A number of my proprietor friends were anxious to put in a bid for the printing of the venture. "Now you won't forget us, Sut?" they would say.

A publisher being secured, my services were again sought to look up a foreman. Late one night I pulled the door-bell of a well known contributor to THE TRADES UNIONIST, at that time out of work, who in robe de nuit stuck his head from an up-stairs win- Armory for their social event and no dow. I made known my errand, and expense will be spared to make this to my disappointment, he declined to accept the situation. Being pressed for a reason, he finally confessed he was afraid.

Then I started after No. 2, who thanked me for the interest I had manifested in his behalf, and assured me he would make up the paper the following day. Two days later I met high and 6,000 tons of steel will go into him on the avenue and said: "Why, it. A 50,000-horse power canal is being how's this? Aint you working?' "Well, I'll tell you," he said. "I'll will be eighty turbines of 600 horsebe busy at the desk some day and a power each. stranger will come in and won't know whether I am the editor or not and proceed to fill me full of holes. I've quit."

The first issue, from the financial view point, looked like a frost. Two weeks later three score newsboys indulged in a free fight on the stairs for the possession of the last bundle of I. LAW REPORTER CO., 518 Fifth street northwest. papers. It was impossible to secure a copy for love or money. It was the same story the following Sunday, and my chances of getting a complete file of "Rhoda Roland" looked slim. Then came a libel suit from a fascinating female over in one of the Auditor's offices. Making a strong guess I will say that Colonel Elliott will sleep at Arlington long before this case comes to court.

The Globe at this date, while not a gold mine, was on Easy street. The partnership under which the venture was launched was dissolved. Again my search for a publisher. The individuals a few weeks ago camping on my coat tails had a far-away look in the eye on my approach. "What's the the matter now?" "Why, libel suit; the matter now?" Why, fiber sur, the publisher is equally amenable under 17. WOOD & JORDAN, 711 G street northwest. business."

In the dead-beat column the Globe placed an alleged asphalt roofer. A libel suit followed, and now from week to week appears a list of his victims and the witnesses to be subpænaed when this suit comes to trial - far over in the future.

There is no doubt but that a paper run on the Brick Pomeroy-Don Piatt Celtic Club Whiskeystyle of journalism is read. One of my boy friends handles a route on the Post | \* \* \* and the Times. I suggested he add the Globe to his list and a few weeks later asked him how he was making out. "There's a woman runs a big . . apartment house up there," he said. "and every Sunday morning she's waiting for me. She drops a string out of the window and says, 'Just chuck the balance in the hall, but tie the Globe on the end of this string. can't wait.""

I met a gentleman on F street one day who said: "There's liable to be

"BIRTHDAY SPECIALS," something in the Globe next Sunday Sutton, you would go down there and head it off." I demurred, and then going to appear anyhow." And I replied: "Don't you know if I went to the Globe or any other office and commenced overhauling the proofsheets I would lay myself liable to being thrown down stairs? If I remember correctly, the Globe was a hot rag last week, when some other fellow's ox was gored." H. S. SUTTON.

THE union label talks. When you see it on an article you know that said article was made under fair conditions and living wages. You don't have to take any one's "say so," and you should not accept, as members of organized labor union, any article if it does not bear the Union label.

THE Omaha Daily News last week asked the Typographical union to reduce the scale 10 per cent, giving as a reason that the paper was not making any money; and on Sunday in a double column it told of the new presses, typesetting machines and other extensive improvements that had been made by the paper. Then it said: "A remarkable feature of these investments is the fact that they were made out of the profits of the paper." The business manager and the editor ought to get together.

It is said that Charlie has an application to go with every "take" of copy he gives out.

The suggestion made in this column last week regarding the organization of a Label League among the women is taking form to a gratifying degree The project was endorsed at the union meeting on Sunday, and the Central Labor Union has taken up the matter with the purpose of perfecting the organization through the authorized and competent channels. May success follow the efforts along the proper lines of promoting the consumption of the products of honest toil, as is assured by the use of the Union Label.

On Saturday night of last week the Missouri Society, a social organization of all Missourians residing in Washington, was organized for the winter season of 1901-2. Mr. R. L. Mabrey, of the First Division, was honored by being selected as president of the society. The membership numbers over 200. The society will meet on the second and fourth Saturday nights of each month, and the features of entertainment will be of a social and literary character. It is intended to have members of the Missouri Congressional and Senatorial delegation present and make addresses at each meeting through the winter. "Judge" Mabrey is a thorough gentleman, and the society was fortunate in selecting so able a presiding officer.

The latest authorized announcement as a candidate to enter the delegate race for the next I. T. U. convention comes from the Second Division. The ambitious gentleman's name is J E. Fulenwider, and perhaps I ought to stop with this authorized announcement, for very few men are better known than he among the membership of Columbia Union. Mr. Fulenwider is not a man who will seek election for pose of a grand pleasure trip at the union's expense. He is a thorough, International Union with a thorough knowledge of its affairs and will further the interests of the craft.
